**Apache Spark 2: Data Processing and Real-Time Analytics** Romeo Kienzler,Md. Rezaul Karim,Sridhar Alla,Siamak Amirghodsi,Meenakshi Rajendran,Broderick Hall,Shuen Mei,2018-12-21 Build efficient data flow and machine learning programs with this flexible multi functional open source cluster computing framework Key FeaturesMaster the art of real time big data processing and machine learning Explore a wide range of use cases to analyze large data Discover ways to optimize your work by using many features of Spark 2 x and ScalaBook Description Apache Spark is an in memory cluster based data processing system that provides a wide range of functionalities such as big data processing analytics machine learning and more With this Learning Path you can take your knowledge of Apache Spark to the next level by learning how to expand Spark s functionality and building your own data flow and machine learning programs on this platform You will work with the different modules in Apache Spark such as interactive querying with Spark SQL using DataFrames and datasets implementing streaming analytics with Spark Streaming and applying machine learning and deep learning techniques on Spark using MLlib and various external tools By the end of this elaborately designed

Learning Path you will have all the knowledge you need to master Apache Spark and build your own big data processing and analytics pipeline quickly and without any hassle This Learning Path includes content from the following Packt products

Mastering Apache Spark 2 x by Romeo Kienzler Scala and Spark for Big Data Analytics by Md Rezaul Karim Sridhar Alla

Apache Spark 2 x Machine Learning Cookbook by Siamak Amirghodsi Meenakshi Rajendran Broderick Hall Shuen Mei Cookbook

What you will learn

- Get to grips with all the features of Apache Spark 2 x
- Perform highly optimized real time big data processing
- Use ML and DL techniques with Spark MLlib and third party tools
- Analyze structured and unstructured data using SparkSQL and GraphX
- Understand tuning debugging and monitoring of big data applications
- Build scalable and fault tolerant streaming applications
- Develop scalable recommendation engines

Who this book is for

If you are an intermediate level Spark developer looking to master the advanced capabilities and use cases of Apache Spark 2 x this Learning Path is ideal for you

Big data professionals who want to learn how to integrate and use the features of Apache Spark and build a strong big data pipeline will also find this Learning Path useful

To grasp the concepts explained in this Learning Path you must know the fundamentals of Apache Spark and Scala

**Sustainable Design and Manufacturing 2017** Giampaolo Campana, Robert J. Howlett, Rossi Setchi, Barbara Cimatti, 2017-04-25 This volume includes papers presented at the 4th International Conference on Sustainable Design and Manufacturing SDM 17 held in Bologna Italy in April 2017 The conference covered a wide range of topics from cutting edge sustainable product design and service innovation sustainable processes and technology for the manufacturing of sustainable products sustainable manufacturing systems and enterprises decision support for sustainability and the study of the societal impact of sustainability including research for circular economy

Application areas are wide and varied and the book provides an excellent overview of the latest research and development in the area of Sustainable Design and Manufacturing

**Energy Systems and Nanotechnology** Dharmendra Tripathi, R. K. Sharma, 2021-05-27 This book presents a very useful and readable collection of chapters in nanotechnologies for energy conversion storage and utilization offering new results which are sure to be of interest to researchers students and engineers in the field of nanotechnologies and energy

Readers will find energy systems and nanotechnology very useful in many ways such as generation of energy policy waste management nanofluid preparation and numerical modelling energy storage and many other energy related areas

It is also useful as reference book for many energy and nanofluid related courses being taken up by graduate and undergraduate students

In particular this book provides insights into various forms of renewable energy such as biogas solar energy photovoltaic solar cells and solar thermal energy storage

Also it deals with the CFD simulations of various aspects of nanofluids hybrid nanofluids

**Advanced Direct Injection Combustion Engine Technologies and Development** H Zhao, 2009-12-18 Volume 2 of the two volume set

Advanced direct injection combustion engine technologies and development investigates diesel DI combustion engines which despite their commercial success are facing ever more stringent emission legislation worldwide

Direct injection diesel engines are generally more efficient and

cleaner than indirect injection engines and as fuel prices continue to rise DI engines are expected to gain in popularity for automotive applications Two exclusive sections examine light duty and heavy duty diesel engines Fuel injection systems and after treatment systems for DI diesel engines are discussed The final section addresses exhaust emission control strategies including combustion diagnostics and modelling drawing on reputable diesel combustion system research and development Investigates how HSDI and DI engines can meet ever more stringent emission legislation Examines technologies for both light duty and heavy duty diesel engines Discusses exhaust emission control strategies combustion diagnostics and modelling

The Truth About Energy John K. White, 2024-02-08 The transition to renewable energy is vital and fast paced but how do we choose which technologies to drive this energy transition This timely book provides everyone interested in the renewable energy transition with an introduction to and technical foundation for understanding modern energy technology It traces everyday power generation through history from the Industrial Revolution to today It examines the use of wood coal oil natural gas hydro and nuclear to produce energy before discussing renewable energy sources such as biomass photovoltaics concentrated solar power wind wave and geothermal The book examines to what extent and how each technology can contribute to a clean green infrastructure The Truth About Energy explains the science and engineering of energy to help everyone understand and compare current and future advances in renewable energy providing the context to critically examine the different technologies that are competing in a fast evolving engineering political and economic landscape

**Advances in Machine Learning** Zhi-Hua Zhou, Takashi Washio, 2009-10-06 The First Asian Conference on Machine Learning ACML 2009 was held at Nanjing China during November 2-4 2009 This was the first edition of a series of annual conferences which aim to provide a leading international forum for researchers in machine learning and related fields to share their new ideas and research findings This year we received 113 submissions from 18 countries and regions in Asia Australasia Europe and North America The submissions went through a rigorous double blind reviewing process Most submissions received four reviews a few submissions received five reviews while only several submissions received three reviews Each submission was handled by an Area Chair who coordinated discussions among reviewers and made recommendation on the submission The Program Committee Chairs examined the reviews and meta reviews to further guarantee the reliability and integrity of the reviewing process Twenty nine papers were selected after this process To ensure that important revisions required by reviewers were incorporated into the final accepted papers and to allow submissions which would have potential after a careful revision this year we launched a revision double check process In short the above mentioned 29 papers were conditionally accepted and the authors were requested to incorporate the important and must revision summarized by area chairs based on reviewers comments Therevised final version and the revision list of each conditionally accepted paper was examined by the Area Chair and Program Committee Chairs Papers that failed to pass the examination were finally rejected
