FINGERPRINT WORKSHEET

Take your fingerprints. Put ink on your fingerprint plate, place your finger up over the designated square. Press the left edge of your finger tip down and roll your finger across the right. Rolling is crucial to get a full fingerprint print without smudging.

Analyze your fingerprints. Identify the ridge patterns and where pattern, loops, and whorls with the circles. Record the class and number of each fingerprint pattern by the total number of fingers. These ridge characteristics for each of your fingerprints. Share with your partner.
