## **Formless Ways In And Out Of Form:**

Formless Patrick Crowley, Paul Hegarty, 2005 The papers in this volume challenge the concept of form and aim to set out explore and develop different theories and examples of the formless In so doing they raise questions of form and notions of formlessness as distinct from something called the formless The starting point for many of the contributors is Georges Bataille s highly influential article entitled informe formless Here in a context where art philosophy and anthropology were merging Bataille tried to question the idea of formlessness as simply applying to things without form This book through a diversity of articles in various domains asks how and why the formless is such a dominant idea from the nineteenth century onwards and it asks the question what is formless

**Writing of the Formless** Jaime Rodríguez Matos, 2016-12-01 In this book Jaime Rodríguez Matos proposes the formless as a point of departure in thinking through the relationship between politics and time Thinking through both literary and political writings around the Cuban Revolution Rodríguez Matos explores the link between abstract symbolic procedures and various political experiments that have sought to give form to a principle of sovereignty based on the category of representation In doing so he proposes the formless as the limit of modern and contemporary reflections on the meaning of politics while exploring the philosophical consequences of a formless concept of temporality for the critique of metaphysics Rodríguez Matos takes the writing and thought of José Lezama Lima as the guiding thread in exploring the possibility of a politics in which time is imagined beyond the disciplining functions it has had throughout the metaphysical tradition a time of the absence of time in which the absence of time no longer means eternity

**An Aesthetics of Injury** Ian Fleishman, 2018-03-15 An Aesthetics of Injury exposes wounding as a foundational principle of modernism in literature and film Theorizing the genre of the narrative wound texts that aim not only to depict but also to inflict injury Ian Fleishman reveals harm as an essential aesthetic strategy in ten exemplary authors and filmmakers Charles Baudelaire Franz Kafka Georges Bataille Jean Genet Hélène Cixous Ingeborg Bachmann Elfriede Jelinek Werner Schroeter Michael Haneke and Quentin Tarantino Violence in the modernist mode an ostensible intrusion of raw bodily harm into the artwork aspires to transcend its own textuality and yet as An Aesthetics of Injury establishes the wound paradoxically remains the essence of inscription Fleishman thus shows how the wound once the modernist emblem par excellence of an immediate aesthetic experience comes to be implicated in a postmodern understanding of reality reduced to ceaseless mediation In so doing he demonstrates how what we think of as the most real object the human body becomes indistinguishable from its nonreal function as text At stake in this tautological textual model is the heritage of narrative thought both the narratological workings of these texts how they tell stories and the underlying epistemology exposed whether these narrativists still believe in narrative at all With fresh and revealing readings of canonical authors and filmmakers seldom treated alongside one another An Aesthetics of Injury is important reading for scholars working on literary or cinematic modernism and the postmodern philosophy narratology body culture studies queer and gender studies

**Emancipation, Democracy and the Modern Critique of Law** Mikael Spång,2017-08-08 This book focuses on Jürgen Habermas theorising on law rights and democracy in light of the modern critique of law The latter tradition which goes back to Hegel and Marx has addressed the limitations of rights as vocabulary of emancipation and law as language of autonomy Since Habermas claims that his reconstruction of private and public autonomy has an emancipatory aim the author has chosen to discuss it in the context of the modern critique of law More specifically the study addresses the need to consider the dialectic of law in which law is both a condition for emancipation and domination when discussing what law and rights permit It will appeal to students and scholars across the fields of political theory law and legal criticism as well as sociology and sociology of law *Georges Bataille* Benjamin Noys,2000-05-20 This is a guide to the life and work of the French intellectual Georges Bataille best known as the author of the celebrated erotic novel *The Story of the Eye* Benjamin Noys introduces Bataille as a writer out of step with the dominant intellectual trends of his day surrealism and existentialism and shows that it was his very marginality that accounted in large part for his subsequent importance for the post structuralists and the counterculture in Europe and in the United States Treating Bataille s work as a whole rather than focusing as other studies have done on aspects of his work i e as social theory or philosophy Noys study is intended to be sensitive to the needs of students new to Bataille s work while at the same time drawing on the latest research on Bataille to offer new interpretations of Bataille s oeuvre for more experienced readers This is the first clear introductory reading of Bataille in

English challenging current reductive readings and stressing the range of disciplines affected by Bataille's work at a time when interest in Bataille is growing

**The Liberation of Consciousness from Identification with Form** Steven Kaufman, 2019-05-30 The purpose of this work is to explain in detail how consciousness identifies with form how that identification is perpetuated by the reactivity that naturally follows and why this misidentification is a necessary part of the evolution of consciousness into ever greater awareness of itself. Ultimately the reason for explaining all of this is to make it clear that the way out of this self constructed and self perpetuated delusion is through some degree of nonreactivity. That is what will be explained is that the way out of what seems to be the trap in which we have purposefully placed ourselves lies simply through ceasing to continuously interact with the world in a way that is dictated solely by our delusion regarding our nature i.e. by the idea that what we are is form. Because as long as we continue to interact with the world solely on the basis of this delusion the delusion cannot do other than persist. And as long as the delusion persists as long as we are actively generating and perpetuating this delusion through our reactivity i.e. through the way in which we naturally tend to interact with the world of form while knowing ourselves as form we must continue to know ourselves as we are not and so we must also continue to suffer

Attaining the Way Master Sheng-Yen, 2006-10-10 This is an inspiring guide to the practice of Chan Chinese Zen in the words of four great masters of that tradition. It includes teachings from contemporary masters Xuyun and Sheng Yen and from Jiexian and Boshan of the Ming Dynasty 1368-1644. Though the texts were written over a period of hundreds of years they are all remarkably lucid and are perfect for beginners as well as more advanced practitioners today. All the main points of spiritual practice are covered: philosophical foundations, methods, approaches to problems and obstacles, all aimed at helping the student attain the way to enlightenment

**Just Throw the Dart** Richard Amiss, 2018-06-27 The purpose of this book is to reach out to people and offer them something from the often long and heavy experience of psychotherapy that they can use immediately in relation with their spiritual self and with others. I want the reader to be able to apply metaphors that clarify and define different ways of looking at their lives. Whether it is psychological or spiritual is up to the reader. I hope that you are able to understand your life from an entirely different perspective than what you are perhaps used to. You can decide. This is how I think most of the time

**The Formless Self** Joan Stambaugh, 1999-05-06 Gathering and interpreting material that is not readily available elsewhere, this book discusses the thought of the Japanese Buddhist philosophers Dogen Hisamatsu and Nishitani. Stambaugh develops ideas about the self culminating in the concept of the Formless Self as formulated by Hisamatsu in his book *The Fullness of*

Nothingness and the essay The Characteristics of Oriental Nothingness and further explicated by Nishitani in his book Religion and Nothingness These works show that Oriental nothingness has nothing to do with the nineteenth and twentieth century Western concept of nihilism Instead it is a positive phenomenon enabling things to be

**Deconstruction and the Work of Art** Martta Heikkilä,2021-07-29 The contemporary idea of the work of art is paradoxically both widely used and often unexamined Therefore we must re evaluate the concept before we can understand what the deconstruction of aesthetics means for thinkers like Jacques Derrida Jean Luc Nancy and Philippe Lacoue Labarthe By examining their analyses of works of visual art and contextualizing their thinking on the matter Martta Heikkil asserts that the implications of the work of art art and the aesthetic apply not only to philosophical questions but also to a broader area Instead of the totality represented by the historical concept of Art poststructuralist thinkers introduce the idea of the radical multiplicity of art and its works From this notion arises the fundamental issue in Derrida and the poststructuralist tradition how can we speak philosophically of art which always exists as singular instances as works In Deconstruction and the Work of Art Visual Arts and Their Critique in Contemporary French Thought Heikkil shows that the deconstructionist notions of art are still influential in the discourses of contemporary art in which artworks proliferate and the concept of work is open ended and expanding This book offers an introduction to the deconstructionist theory of art and brings new perspectives to the complex undecidable relation between philosophy and art

**Boring Formless Nonsense** eldritch Priest,2013-02-14 Boring Formless Nonsense intervenes in an aesthetics of failure that has largely been delimited by the visual arts and its avant garde legacies It focuses on contemporary experimental composition in which failure rubs shoulders with the categories of chance noise and obscurity In these works we hear failure anew We hear boredom formlessness and nonsense in a way that gives new purchase to aesthetic philosophical and ethical questions that falter in their negative capability Reshaping debates on failure as an aesthetic category eldritch Priest shows failure to be a highly dubious concept The book frames recent experimental composition as a deviant kind of sound art whose affective and formal elements reflect on current issues in contemporary culture and offers analyses of musical works and performance practices that are rarely heard let alone considered as significant cultural phenomena showing the role that obscurity and the esoteric have in articulating current cultural realities Ambitious in content and experimental in its approach Boring Formless Nonsense will challenge and fracture your views on failure creativity and experimental music
