Upending the Ivory Tower Stefan M. Bradley, 2021-01-19 Winner 2019 Anna Julia Cooper and C L R James Award given by the National Council for Black Studies Finalist 2019 Pauli Murray Book Prize in Black Intellectual History given by the African American Intellectual History Society Winner 2019 Outstanding Book Award given by the History of Education Society The inspiring story of the black students faculty and administrators who forever changed America s leading educational institutions and paved the way for social justice and racial progress The eight elite institutions that comprise the Ivy League sometimes known as the Ancient Eight Harvard Yale Princeton Penn Columbia Brown Dartmouth and Cornell are American stalwarts that have profoundly influenced history and culture by producing the nation s and the world s leaders

The few black students who attended Ivy League schools in the decades following WWII not only went on to greatly influence black America and the nation in general but unquestionably awakened these most traditional and selective of American spaces. In the twentieth century black youth were in the vanguard of the black freedom movement and educational reform. Upending the Ivory Tower illuminates how the Black Power movement which was borne out of an effort to edify the most disfranchised of the black masses also took root in the hallowed halls of America's most esteemed institutions of higher education. Between the close of WWII and 1975 the civil rights and Black Power movements transformed the demographics and operation of the Ivy League on and off campus. As desegregators and racial pioneers black students, staff and faculty used their status in the black intelligentsia to enhance their predominantly white institutions while advancing black freedom. Although they were often marginalized because of their race and class the newcomers altered educational policies and inserted blackness into the curricula and culture of the unabashedly exclusive and starkly white schools. This book attempts to complete the narrative of higher education history while adding a much needed nuance to the history of the Black Power movement. It tells the stories of those students, professors, staff and administrators who pushed for change at the risk of losing what privilege they had. Putting their status and sometimes even their lives in jeopardy black activists negotiated, protested and demonstrated to create opportunities for the generations that followed. The enrichments these change agents made endure in the diversity initiatives and activism surrounding issues of race that exist in the modern Ivy League. Upending the Ivory Tower not only informs the civil rights and Black Power movements of the postwar era but also provides critical context for the Black Lives Matter movement that is growing in the streets and on campuses throughout the country today. As higher education continues to be a catalyst for change there is no one better to inform today's activists than those who transformed our country's past and paved the way for its future.

Cultivating a Culture of Nonviolence in Early Childhood

Development Centers and Schools Taukeni, Simon George, 2019-02-15. With the recent uptick of violence in schools it is essential to strategize new concepts for promoting nonviolent tendencies in children and creating safe environments. Through nonviolent teaching techniques it is possible to effectively demonstrate mutual respect, tolerance and compassion in order to have a lasting peace. Cultivating a Culture of Nonviolence in Early Childhood Development Centers and Schools aims to expand and deepen multicultural nonviolent teaching techniques and concepts to achieve desired outcomes for early childhood development centers, schools, institutions of higher learning and centers of teacher development and training. While highlighting topics including child development, conflict resolution and classroom leadership, this book is ideally designed for teachers, directors, principals, teacher organizations, school counselors, psychologists, social workers, government officials, policymakers, researchers and students.
