The World Market for Natural Gas Andrea Gilardoni, 2008-07-20 This book is a product of investigations conducted within the Global Utility Research Unit Guru of Agici Corporate Finance Milan Italy More specifically it is the result of a project developed by the Observatory on Alliances and Strategies in the Pan European Utility Market set up seven years ago with the contribution of Accenture The project entitled Pan European Gas Industry Scenario Truth and Lies was presented at the 2008 Milan annual international conference www.agici.it I would therefore like to thank Luca Cesari Claudio Arcudi and Massimo Pagella from Accenture for their continued support The scope of this book is to shed some light on a market that of natural gas which is highly complex and at the same time of fundamental importance for Europe for at least the next 20 years We do not intend to build a theory but only to develop a better understanding of the key factors We fully recognise that each of the issues we cover deserves further investigation and we are also well aware that we may have omitted a number of important considerations and topics These shortcomings are at least in part justified by the desire to keep the book to a reasonable size for editorial reasons

Law and Intersystemic Communication Gorm Harste, 2016-04-15 With contributions from experts in the field of sociology of law this book provides an overview of current perspectives on socio legal studies It focuses particularly on the relationship between law and society described in recent social systems theory as structural coupling The first part of the book presents a reconstruction of theoretical tendencies in the field of socio legal studies characterised by the emergence of a transnational model of legal systems no longer connected to territorial borders and culturally specific aspects of single legal orders In the following parts of the book the contributions analyse some concrete cases of interrelation between law and society from an empirical and theoretical perspective

Counter-shock Duccio Basosi, Giuliano Garavini, Massimiliano Trentin, 2018-04-30 The oil price collapse of 1985 had momentous global consequences non fossil energy sources quickly became uncompetitive the previous talk of an OPEC imperium was turned upside down the Soviet Union lost a large portion of its external revenues and many Third World producers saw their foreign debts peak Compared to the much debated 1973

oil shock the countershock has not received the same degree of attention even though its legacy has shaped the present day energy scenario This volume is the first to put the oil counter shock of the mid 1980s into historical perspective Featuring some of the most knowledgeable experts in the field Counter Shock offers a balanced approach between the global picture and local study cases In particular it highlights the crucial interaction between the oil counter shock and the political counterrevolution against state intervention in economic management put forward by Ronald Reagan and Margaret Thatcher in the same period

The Gulf Oil and Gas Sector The Emirates Center for Strategic Studies and Research,2006-04-11 The predominance of oil as the world s main source of energy coupled with the recent phenomenal growth of the natural gas industry spurred by environmental considerations ensure that the Gulf s energy sector will continue to play a pivotal role in the global market With world demand projected to reach unprecedented levels led by Asian economic powers such as China and India oil production peaking in key areas and geopolitical crises fueling greater uncertainty issues of global supply security have come to the fore All these factors have led to a steep rise in petroleum prices filling the coffers of the oil producers but threatening to paralyze the global economy and imposing a heavy burden on the ultimate consumers In this energy scenario where does the Gulf oil and gas sector stand How can it meet its long term strategic requirements while satisfying the energy needs of the global economy This was the main focus of the ECSSR Tenth Annual Energy Conference on The Gulf Oil and Gas Sector Potential and Constraints held in Abu Dhabi from September 26 27 2004 The conference presentations of the energy experts compiled in this book examine both the possibilities and the problems of the Gulf energy sector in the wider global context Important energy issues covered include the future prospects of OPEC the impact of world oil prices on global growth the strategic objectives of the Gulf energy sector the influence of markets and technology on regional reserves the emerging partnerships between national and international oil companies the imperatives for attracting Gulf energy investment and new developments in gas technology and regional gas trade Regional case studies outline possible scenarios for the future of Iraqi oil highlight policy options for Saudi Arabia as a swing producer and focus on the Norwegian experience of economic diversification
