their positionality in studying rurality the book highlights a need for greater attention to where we are in the picture more broadly It suggests that when it comes to the rural researchers need to rethink the interplay of dominant images insider and outsider perspectives and what this interplay means in relation to interpretation Where Am I in the Picture presents a new vision of how to take into consideration positionality in research

Rebels and Rage Adam Habib,2019-03-01 Adam Habib the most prominent and outspoken university official through the recent student protests takes a characteristically frank view of the past three years on South Africa s campuses in this new book Habib charts the progress of the student protests that erupted on Wits University campus in late 2015 and raged for the better part of three years drawing on his own intimate involvement and negotiation with the students and also records university management and government responses to the events He critically examines the student movement and individual student leaders who emerged under the banners feesmustfall and Rhodesmustfall and debates how to achieve truly progressive social change in South Africa on our campuses and off This book is both an attempt at a historical account and a thoughtful reflection on the issues the protests kicked up from the perspective not only of a high ranking member of university management but also Habib as political scientist with a background as an activist during the struggle against apartheid Habib moves between reflecting on the events of the last three years on university campuses and reimagining the future of South African higher education

Youth In South Africa Ariane De Lannoy,Malose Langa,2021-05-05 South Africa is characterised by a youthful population and the challenges and possibilities that characterise the young generation are both warning signs and beacons of hope for a nation founded on social justice Youth in South Africa Agency in visibility and national development takes stock of the nation s development as it affects young people Authors offer both personal and professional insights into the ways in which the youth navigate their own pathways to adulthood These include formal and informal engagements with politics as well as protest un employment entrepreneurship education religion experiences with sexuality and violence and a multitude of other life experiences

Contributors paint a picture of the initiative agency and resilience of the youth as well as the challenges before them. Authors also identify the state of waithood faced by those unable to make the transition out of youth into full adulthood as a result of their socio-economic circumstances and political context. By engaging these experiences and insights and primarily informed by the inputs of young people, the authors highlight the limitations of existing youth policies and frameworks. The case is made for policy instruments to be informed by the lived experiences of the youth as they navigate a complex macrosocial environment and by the messages the youth communicate about the limitations of current approaches.

Going to University Case, Jennifer, Marshall, Delia, 2018-02-09. Around the world more young people than ever before are attending university. Student numbers in South Africa have doubled since democracy and for many families higher education is a route to a better future for their children. But alongside the overwhelming demand for higher education, questions about its purposes have intensified. Deliberations about the curriculum, culture, and costing of public higher education abound from student activists, academics, parents, civil society, and policy makers. We know from macro research that South African graduates generally have good employment prospects. But little is known at a detailed level about how young people actually make use of their university experiences to craft their life courses. And even less is known about what happens to those who drop out. This accessible book brings together the rich life stories of 73 young people six years after they began their university studies. It traces how going to university influences not only their employment options but also nurtures the agency needed to chart their own way and to engage critically with the world around them. The book offers deep insights into the ways in which public higher education is both a private and public good and it provides significant conclusions pertinent to anyone who works in and cares about universities.
