2024-2025 Regional Finals Study Guide - Beta Question Set

Instructions: This study guide should be your first resource in preparing for the International Geography Bee that is run on the Beta Set of questions for the 2024-2025 academic year. Most of the facts below are found at some point in the preliminary rounds of this Set. Thus, we have selected these facts for this study guide to help make your preparation easier and more efficient. This study guide is particularly meant to help new players and teams – not to determine the ultimate winner of the tournament. For that, you will need to do more preparation. In particular, we recommend reviewing the past questions that are posted on the website at www.ihbbeurope.com, www.iacompetitionsasia.com, or www.ihbbcanada.com as well as the other resources there, such as the Nationals Capitals Study Guide. Remember that the questions are all short paragraphs on a particular topic, so if a topic is referenced below, then it is a good idea to learn a bit more about it on your own than what is listed here (since additional facts about a topic will also be referenced in the question). On the other hand, it is generally not helpful to memorize the dates of events or of famous people's birth and death years, as those are provided below for historical context, not because we will likely ask for those. It is also helpful to read, at a minimum, the introduction of a Wikipedia page on a topic to gain additional context about why it is significant. Good luck!
