Stafford, 2023-08-28 The potential benefits of doing things more precisely in agriculture include terms such as environmental economic audit trail vehicle guidance crop management and others Whilst some benefits have proved elusive others are contributing positively to today's agriculture In such an environment continuing research is required and needs to be reported and disseminated to a wide audience These Proceedings contain papers presented at the 5th European Conference on Precision Agriculture held in Uppsala Sweden The papers reflect the wide range of disciplines that impinge on precision agriculture technology crop science soil science agronomy information technology decision support remote sensing and others Peer reviewed papers from the 2nd European Conference on Precision Livestock Farming are presented in a companion proceedings **Precision Livestock Farming 05** **Soil Survey Horizons**, 2003 **Environmental and Criminal Geoforensics** D. Pirrie, A. Ruffell, L.A. Dawson, 2013-12-05 Geological techniques are widely used in two aspects of serious criminal investigations 1 the search for clandestine burial sites based on near surface geophysics or through the detection of

decomposition signals and 2 the analysis of trace evidence to identify its source location or test the possible association between the trace evidence and a known location of an offence Although geoforensics is used in such investigations world wide there are still considerable gaps in the published literature In addition there is increasing concern regarding the illegal release of wastes either into the atmosphere water courses or on to the land surface and a growing realization that the techniques used in criminal forensics are equally useful in the investigation of environmental crime This book bridges the gap between environmental and criminal geoforensics with conceptual methodological and case study contributions This demonstrates the significant potential that geoforensics holds for investigating and regulatory officers      **Australian**
