 Dissecting twenty years of educational politics in our nation s largest cities American School Reform offers one of the
 clearest assessments of school reform as it has played out in our recent history Joseph P McDonald and his colleagues
 evaluate the half billion dollar Annenberg Challenge launched in 1994 alongside other large scale reform efforts that have
 taken place in New York Chicago Philadelphia and the San Francisco Bay Area They look deeply at what school reform really
 is how it works how it fails and what differences it can make nonetheless McDonald and his colleagues lay out several
 interrelated ideas in what they call a theory of action space Frequently education policy gets so ambitious that implementing
 it becomes a near impossibility Action space however is what takes shape when talented educators leaders and reformers
 guide the social capital of civic leaders and the financial capital of governments foundations corporations and other backers
 toward true results Exploring these extraordinary collaborations through their lifespans and their influences on future efforts
 the authors provide political hope that reform efforts can work and that our schools can be made better **Public Service**
Ethics James S. Bowman,Jonathan P. West,2014-01-21 Ethics in all its exemplary and exhausting forms matters It deals with
 the most gripping question in public life What is the right thing to do In Public Service Ethics Individual and Institutional
 Responsibilities James Bowman and Jonathan West examine individual centered and organization focused ethics applying
 ideas and ideals from both to contemporary dilemmas The authors take on controversial issues from whistle blowing
 incidents to corruption expos s to explain how they arise and suggest what can be done about them They start with the
 conceptual tools students need to evaluate an ethical dilemma then analyze individual decision making strategies and go on
 to assess institutional ethics programs The emphasis is not only on the how to but also on the why The ultimate goal is to
 bolster students confidence and prepare them for the ethical problems they will face in the future by equipping them with the
 conceptual frameworks and context to approach thorny questions and behave ethically **Open Court Reading**
