Globalized Finance and Varieties of Capitalism H. van Zon, 2016-05-01 Hans van Zon analyzes the financialization of developed capitalism and argues that the emergence of finance as a dominant force has contributed to the relative decline of the West. He demonstrates that the neo liberal model is inherently unstable and undermines capitalist economies which can only function if they are embedded in institutions that are non or even pre capitalist. He shows how a toxic combination of financialization, corporate globalization and a deregulated and parasitic financial industry have led to structural economic stagnation in both the USA and the greater part of the EU.

American Gun Cameron McWhirter, Zusha Elinson, 2023-09-26 A finalist for the Los Angeles Times Book Prize. A magisterial work of narrative history and original reportage. You can feel the tension building one cold catastrophic fact at a time. A virtually unprecedented achievement. Mike Spies, The New York Times Book Review. Editors' Choice. A Washington Post top 50 nonfiction book of 2023. Short listed for the Zocalo Book Prize. One of The New York Times 33 nonfiction books to read this fall. One of Esquire's best books of fall. A Kirkus Reviews best nonfiction book of 2023. Named a most anticipated book of the fall by The Washington Post, Los Angeles Times and Bloomberg. American Gun: The True Story of the AR 15 presents the epic history of America's most controversial weapon. In the 1950s an obsessive firearms designer named Eugene Stoner invented the AR 15 rifle in a California garage. High minded and patriotic Stoner sought to devise a lightweight easy to use weapon that could replace the M1s touted by soldiers in World War II. What he did create was a lethal handheld icon of the American century. In American Gun the veteran Wall Street Journal reporters Cameron McWhirter and Zusha Elinson track the AR 15 from inception to ubiquity. How did the same gun represent the essence of freedom to millions of Americans and the essence of evil to millions more? To answer this question McWhirter and Elinson follow Stoner, the American Kalashnikov, as he struggled mightily to win support for his invention which under the name M16 would become standard equipment in Vietnam. Shunned by gun owners at first, the rifle's popularity would take off thanks to a renegade band of small time gun makers. And in the 2000s it would become the weapon of choice for mass shooters, prompting widespread calls for proscription even as the gun industry embraced it as a financial savior. Writing with fairness and compassion McWhirter and Elinson explore America's gun culture, revealing the deep appeal of the AR 15, the awful havoc it wreaks and the politics of reducing its toll. The result is a moral history of contemporary America's love affair with technology, freedom and weaponry. Includes 8 pages of black and white images.
