of the adventures of such a man a judoka but it is not just about this man or the martial art he practices Rather it is about the way of judo as both a fighting art and an approach to living a way and what this way might be able to tell us about who we are and who we might choose to become The book does not prescribe a way for others to follow that is it does not simply offer advice about what to believe or how to behave or point out the faults in other ways of being It simply describes the way of one particular man with commentary explaining or rather reasoning through the choices he has made with the story presenting the consequences that these choices have for him Reviews for the 1st edition This extraordinary little novella is reminiscent of Castaneda but far more intelligible Alan Watts His direct writing about judo is clear and quietly restrained hard to match in the literature of the subject New York Times
