

The body had been crushed beyond all recognition.

Documents in his billfold identified the deceased as Mr. Cain Marko, 37, with a current address of Madripoor, in the Far East.

Prison records show Mr. Marko was not an inmate at Genosha Bay, and no explanation has been forwarded as to what he was doing on the island.

"Crushed beyond all recognition?"

Oh my God.

It's the Juggernaut, isn't it?

**The Technology of Text** David H. Jonassen, 1982 Abstract: Techniques for designing and developing text materials are described and elaborated for text development technologists. This book focuses on 2 broad categories of techniques for structuring textual materials: termed implicit e.g. discourse analysis, elaboration theory and explicit e.g. algorithms, tables, diagrams, techniques. Implicit techniques are concerned with the structure of the content and sequencing of the message; explicit techniques display the structure of the message. The 4 sections of the book address implicit communication techniques, explicit textual design, specific design problems and how individuals differentially interact with text materials ranging from printed matter to television projections. [Vietnam Reconsidered](#) John Ketwig, 2019-05-06 Very few of the many books about the Vietnam War fully address why the fighting was conducted in such a cruel manner, why it was prolonged far past its logical end, or what ultimately went wrong. American literature has been reluctant to emphasize the fact that between 3.5 and 5 million Southeast Asians died, many of them peasants, that the majority of the bombs dropped from American planes landed on South Vietnam, our ally and an impoverished agricultural society, or that the use of napalm and Agent Orange was in reality chemical warfare. Americans have been reluctant to acknowledge the damage done, but after 17 years of another very similar conflict in Afghanistan, many Americans are beginning to wonder why our highly financed and supported military isn't more effective. This book strongly suggests that the lessons of Vietnam are relevant and worthy of being reconsidered as today's wars are debated. From Captain Kangaroo, Roy Rogers and Walt Disney to space travel, muscle cars and The Beatles, the generation that would be sent to fight in Vietnam was uniquely influenced by times that were a changing. Like square pegs in a round hole, the post World War II baby boomers were brought up with values that made widespread social outcry against the horrors of the war predictable and necessary. Those influences and values have long been ignored, but this book revives a spirited discussion and analysis of the first war America lost.
