Exploring Relationships and Connections to Others Mike P. Cook, Leilya A. Pitre, 2021-10-13 *Exploring Relationships and Connections to Others: Teaching Universal Themes through Young Adult Novels* offers readers opportunities to explore the most common universal themes taught in secondary English Language Arts classrooms using contemporary young adult literature. Authors discuss adolescence and adolescent readers' young adult literature and its possibilities in the classroom and ways to teach thematic analysis. The book provides context, traditional approaches to teaching, and examples of thematic explorations of each of the chosen themes. Chapters include developed teaching/instructional units to study four universal themes: love and loss, friendship and betrayal, hate, its destructive consequences and healing, and dreams and hope for tomorrow. Each instructional unit includes rationale, essential questions and objectives, calendar plans for up to five weeks, examples of introductory reading and discussing, and enrichment activities and assessments. The activities target academic skills for ELA curricula and create safe spaces for exploring topics of relationships and connections to others, both of which are vital to adolescent growth and development. Each instructional chapter suggests a wide range of additional texts and resources for theme explorations. **Shakespeare Quarterly**, 1998 **Come, Bright Improvement!** Heather Murray, 2002-01-01 The forerunner of today's book clubs, nineteenth-century literary societies provided a lively social and intellectual forum where people could gather and discuss books, cultural affairs, and current events. In *Come, Bright Improvement*, Heather Murray explores the literary societies of Ontario between 1820 and 1900, some of which are still in existence today, and examines the extent to which they mirrored or challenged contemporary social, political, and intellectual trends. Based on a wealth of original research with periodicals and local archival materials, Murray traces the evolution from early political and debating clubs to more dedicated literary and cultural societies such as Shakespeare or Browning groups. Many people formed literary societies, including workers, women, Black fugitives, and members of religious denominations such as Quakers and Methodists. Murray studies the societies in detail, exploring everything from the reading materials they favoured to the other kinds of social and civic activities in which they participated. Of additional interest to scholars of book history is the book's resource guide, which records the location, history, and archival deposits of several hundred societies. A first in the study of the book club phenomenon, *Come, Bright Improvement* is a wonderful introduction to nineteenth-century Ontario, the history of book studies, and the history of reading. *Call of the Wild, The: Spotlight Edition* Jack London, 2005 An annotated adaptation of London's classic. Each Spotlight Edition maintains the rich integrity of the original work while adapting the language to be more accessible to the average reader. In addition to providing a more readable text, Prestwick House Spotlight Editions are enhanced, providing readers with thoughtful guided reading questions and margin notes to help navigate the text, suggestions for thought and discussion, research opportunities for richer understanding of the text and its contexts, and suggested writing activities to foster deeper thinking. **Romance Cooking** Lonnie Lynch, 2009-03 *Romance*
