

A full-length portrait of Kaiser Wilhelm II of Germany. He is standing, facing slightly to the right but looking towards the viewer. He has a mustache and is wearing a white military-style uniform with a high collar and a white cape draped over his shoulders. His uniform is heavily decorated with gold embroidery, including a sash and various medals on his chest. He holds a sword in his left hand. The background is a dramatic, cloudy sky in shades of blue and white.

KAISER WILHELM II

JOHN C. G. RÖHL

Kaiser Wilhelm Ii A Concise Life

H Kauffman

Kaiser Wilhelm II A Concise Life:

Kaiser Wilhelm II John C. G. Röhl, 2014-08-21 Kaiser Wilhelm II 1859 1918 is one of the most fascinating figures in European history ruling Imperial Germany from his accession in 1888 to his enforced abdication in 1918 at the end of the First World War In one slim volume John Röhl offers readers a concise and accessible survey of his monumental three volume biography of the Kaiser and his reign The book sheds new light on Wilhelm's troubled youth his involvement in social and political scandals and his growing thirst for glory which combined with his overwhelming nationalism and passion for the navy provided the impetus for a breathtaking long term goal the transformation of the German Reich into one of the foremost powers in the world The volume examines the crucial role played by Wilhelm as Germany's Supreme War Lord in the policies that led to war in 1914 It concludes by describing the rabid anti-Semitism he developed in exile and his efforts to persuade Hitler to restore him to the throne *Kaiser Wilhelm II* John C. G. Röhl, 2014-08-21 This is a concise edition of John Röhl's prize winning three volume biography of Kaiser Wilhelm II of Germany It sheds new light on the Kaiser's troubled youth his involvement in social and political scandals and his role in foreign policy decisions that led to the outbreak of the First World War *Kaiser Wilhelm II, 1859-1918* John C. G. Röhl, 2014 Kaiser Wilhelm II 1859 1918 is one of the most fascinating figures in European history ruling Imperial Germany from his accession in 1888 to his enforced abdication in 1918 at the end of the First World War In one slim volume John Röhl offers readers a concise and accessible survey of his monumental three volume biography of the Kaiser and his reign The book sheds new light on Wilhelm's troubled youth his involvement in social and political scandals and his growing thirst for glory which combined with his overwhelming nationalism and passion for the navy provided the impetus for a breathtaking long term goal the transformation of the German Reich into one of the foremost powers in the world The volume examines the crucial role played by Wilhelm as Germany's Supreme War Lord in the policies that led to war in 1914 It concludes by describing the rabid anti-Semitism he developed in exile and his efforts to persuade Hitler to restore him to the throne Back cover *Kaiser Wilhelm II (ELL)*, 2009 **Professional Journal of the United States Army**, 2015 **War, Strategy and the Modern State, 1792-1914** Carl Cavanagh Hodge, 2016-11-25 This book is a comparative study of military operations conducted by modern states between the French Revolution and World War I It examines the complex relationship between political purpose and strategy on the one hand and the challenge of realizing strategic goals through military operations on the other It argues further that following the experience of the Napoleonic Wars military strength was awarded a primary status in determining the comparative modernity of all the Great Powers that military goals came progressively to distort a sober understanding of the national interest that a genuinely political and diplomatic understanding of national strategy was lost and that these developments collectively rendered the military and political catastrophe of 1914 not inevitable yet probable *Austria 1867-1955* John W. Boyer, 2022-09-15 Austria 1867 1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine

Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance

Political and Military Leadership in the World Wars Carl Cavanagh Hodge, 2021-03-16 This book approaches the World Wars and the decades between them as a single unit in modern history It is impossible to understand either the cause or conduct of the 1939 45 war without an appreciation of the issues not wholly answered in the conflict of 1914 18 Bridging the World Wars was the establishment revision and ultimate collapse of the Versailles settlement and the League of Nations system between 1919 and 1939 The 1919 settlement was contested in the 1920s by Fascist Italy and began to unravel irreparably in 1931 with Japan s incursion into Manchuria The strategic thought of the interwar years is therefore especially instructive in assessing the prosecution of WWII as the military ventures of these two revisionist powers pointed toward future developments even before Germany thrust a new way of war upon Eastern and Western Europe Meanwhile Britain France and the United States began an incremental conversion to new approaches to war in the air and on the sea in particular The interwar decades are best understood as a period of calibrated rearmament by all the powers based on assumptions about the probability of a future war and the nature of its prosecution

Blood and Iron Katja Hoyer, 2021-12-07 In this vivid fifty year history of Germany from 1871 1918 which inspired events that forever changed the European continent here is the story of the Second Reich from its violent beginnings and rise to power to its calamitous

defeat in the First World War Before 1871 Germany was not yet nation but simply an idea Its founder Otto von Bismarck had a formidable task at hand How would he bring thirty nine individual states under the yoke of a single Kaiser How would he convince proud Prussians Bavarians and Rhinelanders to become Germans Once united could the young European nation wield enough power to rival the empires of Britain and France all without destroying itself in the process In this unique study of five decades that changed the course of modern history Katja Hoyer tells the story of the German Empire from its violent beginnings to its calamitous defeat in the First World War This often startling narrative is a dramatic tale of national self discovery social upheaval and realpolitik that ended as it started in blood and iron *William McKinley versus William Jennings Bryan* John M. Pafford,2020-09-01 The clashes between William McKinley and William Jennings Bryan during the 1896 and 1900 presidential elections changed the course of American politics Prior to Bryan s candidacy the Democratic Party was slightly more conservative than the Republican Party At the 1896 Democratic National Convention Bryan s dramatic Cross of Gold speech stampeded the delegates left of center a position the party has traditionally held since Most Americans though rejected this new wave remained conservative and twice elected McKinley These were dramatic years for the country as it continued its rise to become a major world economic and military power Significantly freedom increased for those now within the American orbit *Geopolitics and the Quest for Dominance* Jeremy Black,2015-11-25 History and geography delineate the operation of power not only its range but also the capacity to plan and the ability to implement Approaching state strategy and policy from the spatial angle Jeremy Black argues that just as the perception of power is central to issues of power so place and its constraints and relationships is partly a matter of perception not merely map coordinates Geopolitics he maintains is as much about ideas and perception as it is about the actual spatial dimensions of power Black s study ranges widely examining geography and the spatial nature of state power from the 15th century to the present day He considers the rise of British power geopolitics and the age of Imperialism the Nazis and World War II and the Cold War and he looks at the key theorists of the latter 20th century including Henry Kissinger Francis Fukuyama and Samuel P Huntington Philip Bobbitt Niall Ferguson and others **Trauma, Primitivism and the First World War** Joy Porter,2021-04-08 This book examines the extraordinary life of Frank Toronto Prewett and the history of trauma literary expression and the power of self representation after WWI Joy Porter sheds new light on how the First World War affected the Canadian poet and how war induced trauma or shell shock caused him to pretend to be an indigenous North American Porter investigates his influence of and acceptance by some of the most significant literary figures of the time including Siegfried Sassoon Edmund Blunden Wilfred Owen and Robert Graves In doing so Porter skillfully connects a number of historiographies that usually exist in isolation from one another and rarely meet By bringing together a history of the WWI era early twentieth century history Native American history the history of literature and the history of class Porter expertly crafts a valuable contribution to the field *The Last Hope of the Habsburgs: Crown Prince Rudolf's Journey* Ferdinand von

Arx,2025-03-17 Crown Prince Rudolf of Habsburg was destined to rule one of Europe's most powerful empires As the only son of Emperor Franz Joseph I and Empress Elisabeth he was the great hope of a dynasty struggling to maintain its influence in a rapidly changing world A brilliant mind and a progressive thinker Rudolf sought to modernize the Austro Hungarian Empire embracing liberal ideals that often put him at odds with the rigid traditions of the imperial court Yet behind the grandeur of royal life Rudolf wrestled with deep personal conflicts Trapped between duty and his own convictions isolated from both his father's authority and his mother's affections he found solace in intellectual pursuits political discourse and forbidden love His tragic fate at Mayerling remains one of history's great mysteries was it despair conspiracy or something even darker In *The Last Hope of the Habsburgs* Ferdinand von Arx paints a vivid portrait of a prince who dared to challenge his destiny This compelling biography offers fresh insights into Rudolf's struggles ambitions and the turbulent forces that shaped his life and his tragic end An enthralling story of power idealism and the weight of a fading empire

Rimsky-Korsakov and His World Marina Frolova-Walker,2018-09-11 A rare look at the life and music of renowned Russian composer Nikolai Rimsky Korsakov During his lifetime Nikolai Rimsky Korsakov 1844 1908 was a composer whose work had great influence not only in his native Russia but also internationally While he remains well known in Russia where many of his fifteen operas and various orchestral pieces are still in the standard repertoire very little of his work is performed in the West today beyond *Scheherezade* and arrangements of *The Flight of the Bumblebee* In Western writings he appears mainly in the context of the Mighty Handful a group of five Russian composers to which he belonged at the outset of his career Rimsky Korsakov and *His World* finally gives the composer center stage and due attention In this collection Rimsky Korsakov's major operas *The Snow Maiden* *Mozart and Salieri* and *The Golden Cockerel* receive multifaceted exploration and are carefully contextualized within the wider Russian culture of the era The discussion of these operas is accompanied and enriched by the composer's letters to Nadezhda Zabela the distinguished soprano for whom he wrote several leading roles Other essays look at more general aspects of Rimsky Korsakov's work and examine his far reaching legacy as a professor of composition and orchestration including his impact on his most famous pupil Igor Stravinsky The contributors are Lidia Ader Leon Botstein Emily Frey Marina Frolova Walker Adalyat Issiyeva Simon Morrison Anna Nisnevich Olga Panteleeva and Yaroslav Timofeev The Bard Music Festival Bard Music Festival 2018 Rimsky Korsakov and *His World* Bard College August 10 12 and August 17 19 2018

Empires of the Steppes Kenneth W. Harl,2023-08-01 A narrative history of how Attila Genghis Khan and the so called barbarians of the steppes shaped world civilization The barbarian nomads of the Eurasian steppes have played a decisive role in world history but their achievements have gone largely unnoticed These nomadic tribes have produced some of the world's greatest conquerors Attila the Hun Genghis Khan and Tamerlane among others Their deeds still resonate today Indeed these nomads built long lasting empires facilitated the first global trade of the Silk Road and disseminated religions technology knowledge and goods of every description that enriched and changed the lives of

so many across Europe China and the Middle East From a single region emerged a great many peoples the Huns the Mongols the Magyars the Turks the Xiongnu the Scythians the Goths all of whom went on to profoundly and irrevocably shape the modern world In this new comprehensive history Professor Kenneth W Harl vividly re creates the lives and world of these often forgotten peoples from their beginnings to the early modern age Their brutal struggle to survive on the steppes bred a resilient pragmatic people ever ready to learn from their more advanced neighbors In warfare they dominated the battlefield for over fifteen hundred years Under charismatic rulers they could topple empires and win their own
