Lo Grade 9 Trial Examination 2014:

Adult CNS Radiation Oncology Eric L. Chang, Paul D. Brown, Simon S. Lo, Arjun Sahgal, John H. Suh, 2018-07-27 This book elucidates the radiation therapy protocols and procedures for the management of adult patients presenting with primary benign and malignant central nervous system tumors. With the development of new treatment strategies and rapid advancement of radiation technology, it is crucial for radiation oncologists to maintain and refine their knowledge and skills. Dedicated exclusively to adult CNS radiation oncology, this textbook explores CNS tumors ranging from the common to the esoteric, as well as secondary cancers of metastatic origin. The first half of the book is organized anatomically: tumors of the brain, spinal cord, leptomeninges, optic pathway, ocular choroid, and skull base. The second half covers primary CNS lymphoma, rare CNS tumors, metastatic brain disease, vascular conditions of the CNS, radiation-associated complications, and radiation modalities. Each chapter provides guidance on treatment field design, target delineation, and normal critical structure tolerance constraints in the context of the disease being treated. Learning objectives, case studies, and Maintenance of Certification Self Assessment Continuing Medical Education style questions and answers are incorporated throughout the book. This is an ideal guide for radiation oncologists, residents, and fellows, but medical students may also find value in the text.

Ultrasound Program Management Vivek S. Tayal, Troy R. Foster, Rachel B. Liu, Petra E. Duran-Gehring, 2025-07-31 This book addresses the diverse challenges clinical ultrasound program leaders face, including choosing equipment, building quality improvement programs, understanding credentialing and privileging, and optimizing reimbursement. While mastering the ultrasound probe may seem straightforward, the real challenge lies in delivering safe, efficient, meaningful, transferable, and reimbursable services in modern medicine. This update to the widely used predecessor expands on the original chapters and introduces new ones that explore nuanced aspects of ultrasound program management. Early chapters focus on leadership in ultrasound programs within departments or institutions. Later chapters delve into specific applications, such as hospitalist services, outpatient medicine, pediatrics, prehospital care, and intensive care units. This edition also highlights emerging technologies and their integration into an ultrasound program. New chapters cover topics such as Social Media in Ultrasound Management, Cybersecurity, Artificial Intelligence in Point of Care Ultrasound, and Practical Operating Solutions for Resource Limited Settings. This edition of *Ultrasound Program Management* will be invaluable for ultrasound program and medical academic leaders and those seeking to build successful clinician-performed ultrasound programs.

Justice Required Robert J. Durán,Oralia Loza,2025-10-07 Police have remarkably broad discretion to use deadly force Evidence shows that more than 1 000 shooting deaths occur each year at the hands of the police in the United States disproportionately in minority communities and often under questionable circumstances Despite public outrage there continue to be obstacles to assessing the extent of bias and addressing the harms of police violence including a lack of transparency and limitations on access to data Justice Required is a groundbreaking quantitative and qualitative investigation of police violence Robert J Dur n and Oralia Loza provide a comprehensive data analysis of all police shootings in Denver Colorado over nearly forty years highlighting persistent patterns of racial and ethnic inequality They examine the institutional and political dynamics that thwart efforts to hold police officers accountable after controversial incidents Dur n and Loza contextualize the data with regional comparisons and enliven the analysis with vivid storytelling Justice Required argues that while police shootings are typically treated as a criminal justice issue they should be understood as a public health problem Rigorous and urgent this book provides evidence based data driven solutions to prevent further loss of life and promote accountability
