MEMORANDUM TO: LTC Review

FROM: Performance Improvement and Compliance Branch

RE: **LONG-TERM CARE ACT (LTCA): Important updates and clarifications**

On January 1, 2018, the Ministry of Health and Long-Term Care (Ministry) implemented important policy changes to the Long-Term Care Act (LTCA). This memorandum alerts long-term care facilities about the changes that Ministry has introduced into the LTCA and the importance of staying up-to-date on these changes.

Exceptional Medical Case Category Clarifications

Changes to Surface under the Exceptional Medical Case Category

This ministry is sharing previous information provided to long-term care (LTC) homes regarding therapeutic surfaces. Therapeutic surfaces and use of a pressure-reducing mattress are considered under the Exceptional Medical Case Category. Please be aware that the category is not intended to be used for other medical or health conditions that may prevent therapeutic surfaces. Therapeutic surfaces cannot be used under the LTC program and LTCHs must adhere to level of care funding, including the cap on the level of care funding in a LTC home that applies to the LTC program. Facilities that provide therapeutic surfaces for their residents, please note that specific surfaces are not subject to regulation under the LTC program.

It is consistent with what the ministry has previously said that facilities are not required to specialize in the use of such, and information on the program is set to align with the LTC program policy that relates to the changes made to January 1, 2018. More specifically, the program will provide funding for facilities independent of the level of care funding or funding model. The current case funding model has been used to provide facilities with complete care for residents who have other health conditions.

In addition, please note the addition of Regulation 181a under the Long-Term Care Home Act (LTC Act) requires that facilities use LTC information only related to all and around care for residents, as indicated below.

This program requires the provision of services and care to residents who require such services and support. Facilities must be encouraged to promote resident comfort and safety, and to promote the prevention of infection, including the monitoring of residents. There must be strategies to identify and prevent residents in order to reduce and prevent the spread of infection and to reduce and prevent the spread of infection.
