Measuring Up English Edition:

Measuring Up in Higher Education Anthony Welch, Jun Li, 2021-05-03 This book examines the quality assessment movement in academic scholarship as globalization prompts a search for global measures of university services and output. It gauges productivity in terms of universal publication metrics and considers ranking and research productivity from a comparative perspective. The book considers the use of the impact factor as a gauge of publication value, noting that this is less important in countries lacking central government appropriations to universities and to research. It argues that pressure to publish in certain journals and to research topics of interest to English language readers has been felt differentially in English language systems compared to others but also that performance pressures fall more on younger more junior contract staff than on senior and tenured professors. It problematizes international comparisons of quality and analyses the benefits of a zone of ideas and metrics in a common language promoting international mobility, efficiency, collaboration but also the costs which are rarely borne equally across countries, languages and cultures. The book provides a strong evidence based contribution to major debates in contemporary higher education reforms and the measurement of academic output.

Measuring Up National Research Council, Mathematical Sciences Education Board, 1993-02-01 Glimpse the future of mathematics assessment in *Measuring Up*. Sarah Caldwell Daniel Kessler, 2008-07-31 This is the first biography of the musician, conductor and director Sarah Caldwell, an indomitable force for opera in America and the first woman to conduct at the Metropolitan Opera.

Perry Rhodan NEO: Volume 4 (English Edition) Arndt Ellmer, Hubert Haensel, 2021-11-01 The utopian city has fallen. Terrania, which was supposed to be a new starting point for all of humanity, ends up in the Chinese army's clutches after a nuclear explosion. Desperate to avoid arrest, Perry Rhodan and Reginald Bull make a daring escape in a makeshift aircraft. All is not as it seems in Terrania, however. With the help of telepath John Marshall and his companions, General Bai Jun is getting ready to execute a plan that puts him starkly at odds with his government masters. Meanwhile, Arkonide commander Thora da Zoltral is trapped on Venus after being shot down. As she begins to explore a puzzling ancient base, she starts to realize that this might not be the first time the Arkonides have ventured to our solar system. Little does she know that as she investigates these new developments back on Earth, her foster father is about to stand trial in the United States. With mankind unable to put aside its petty differences and come together, the promise of the stars looks as far away as ever.
