Mechanics of Materials Ferdinand Pierre Beer, Elwood Russell Johnston, John T. DeWolf, David Francis Mazurek, Sanjeev Sanghi, 2017 Beer and Johnston's *Mechanics of Materials* is the uncontested leader for the teaching of solid mechanics. Used by thousands of students around the globe since publication, *Mechanics of Materials* provides a precise presentation of the subject illustrated with numerous engineering examples that students both understand and relate to theory and application. The tried and true methodology for presenting material gives your student the best opportunity to succeed in this course. From the detailed examples to the homework problems to the carefully developed solutions manual, you and your students can be confident the material is clearly explained and accurately represented. McGraw Hill is proud to offer Connect with the seventh edition of Beer and Johnston's *Mechanics of Materials*. This innovative and powerful system helps your students learn more effectively and gives you the ability to assign homework problems simply and easily. Problems are graded automatically and the results are recorded immediately. Track individual student performance by question assignment or in relation to the class overall with detailed grade reports. ConnectPlus provides students with all the advantages of Connect plus 24/7 access to an eBook. Beer and Johnston's *Mechanics of Materials* seventh edition includes the power of McGraw Hill's LearnSmart, a proven adaptive learning system that helps students learn faster, study more efficiently, and retain more knowledge through a series of adaptive questions. This innovative study tool pinpoints concepts the student does not understand and maps out a personalized plan for success.

Mechanics of Materials Ferdinand Pierre Beer, Elwood Russell Johnston, John T.

DeWolf, 2002 For the past forty years Beer and Johnston have been the uncontested leaders in the teaching of undergraduate engineering mechanics. Their careful presentation of content, unmatched levels of accuracy, and attention to detail have made their texts the standard for excellence. The revision of their classic *Mechanics of Materials* text features a new and updated design and art program. Almost every homework problem is new or revised, and extensive content revisions and text reorganizations have been made. The multimedia supplement package includes an extensive strength of materials Interactive Tutorial created by George Staab and Brooks Brecken of The Ohio State University to provide students with additional help on key concepts, and a custom book website offers online resources for both instructors and students.
