1	Doctor	Hello, Juliana. How are you feeling today?	Hola, Juliana. ¿Cómo se siente hoy?
	Patient	Hola, doctor. He estado mejor. Llevo dos semanas con problemas de los senos paranasales.	Hi, doctor. I've been better. I've had sinus problems for two weeks.
2	Doctor	I'm sorry to hear that. Can you tell me more about your symptoms?	Cuánto lo siento. ¿Puede decirme más acerca de sus síntomas?
	Patient	Por supuesto. La congestión va y viene a lo largo del día. A veces me despierto sangrando por la nariz. He tenido unos dolores de cabeza terribles.	Sure. I have congestion on and off throughout the day. Sometimes I wake up with a bloody nose. And I've been getting terrible headaches.
3	Doctor	How often do you experience headaches?	¿Con qué frecuencia ha estado experimentado dolores de cabeza?
	Patient	Por lo menos una vez al día. A veces el dolor se centra en el área de los senos paranasales, y entonces me duele toda la cara. Eso realmente está afectando mi capacidad para trabajar.	At least once a day. Sometimes the headache is focused around my sinus area, and then my whole face hurts. It's really affecting my ability to work.
4	Doctor	That sounds miserable, Juliana. Have you been taking any over-the-counter medication to treat the congestion or the headaches?	Eso suena terrible, Juliana. ¿Ha tomado algún medicamento sin receta medica para tratar la congestión o los dolores de cabeza?
	Patient	Bueno, es que eso es parte del problema. Estaba usando un descongestionante nasal de venta libre, pero en el envase decía que no lo usara más de cinco días. Así que tuve que dejarlo.	Well, that's part of the problem. I was taking an over-the-counter nasal decongestant, but the package said not to use it for more than five days. So, I had to stop.
5	Doctor	Yes, most of the decongestants come with that warning. They can worsen congestion if used too long.	Sí, la mayoría de los descongestionantes incluyen esa advertencia. La congestión puede empeorar si se usan por demasiado tiempo.
	Patient	Exacto. Así que ahora tomo ibuprofeno para los dolores de cabeza, pero sigo teniendo dificultades para acabar el día de trabajo.	Right. So now I just use ibuprofen for the headaches, but I still have a hard time getting through the work day.
6	Doctor	It sounds like you're dealing with a sinus infection. I'll check your nose and throat to be sure. Would you be open to taking a prescription antibiotic for 7 days?	Me parece que está lidiando con una infección sinusal. Voy a revisarle la nariz y la garganta para estar seguros. ¿Estaría dispuesta tomar una receta de antibióticos por 7 días?
	Patient	No tengo ningún problema. Tomaré cualquier cosa que me haga volver a la normalidad.	I have no problem with that. I'll take anything that'll get me back to normal.

**Working with Interpreters and Translators** Henriette W. Langdon, Terry Irvine Saenz, 2015-10-15 Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists offers state of the art procedures to conduct interviews assessments and conferences with students with limited English language proficiency and their families As no research base is available in the field of communicative disorders on this specific topic the information presented in this guide is supported by a critical review of the literature on best practices in interpreting for international conferences and legal and medical fields Furthermore the authors experience working with language interpreters and training professionals as well as graduate students in communicative disorders makes this a very valuable resource for professionals interpreters translators as well as undergraduate and graduate students Federal and state laws specify that if necessary English language learners ELL need to be assessed in their native language when referred for possible special education The number of ELL students attending public schools across the nation has increased in the past few decades There are not enough speech language pathologists SLPs or audiologists who are proficient in the various languages spoken by ELL students even in Spanish the most common language spoken by ELL students in the United States The next best solution is to conduct assessments in collaboration with a trained interpreter translator Key features include Information and references for the most common languages spoken by ELL students Discussion of culturally based variables that need to be considered in the process of interviewing and working with linguistically and culturally diverse

populations Description of the roles and responsibilities for individuals who will be collaborating as interpreters and translators with SLPs and audiologists in various contexts such as interviews assessments and various meetings such as IEPs and IFSPs as well as suggestions on training individuals in this collaborative process Review of best practices in speech language and audiological assessments both with and without materials in the given language Disclaimer Please note that ancillary content such documents audio and video may not be included as published in the original print version of this book Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists is a must have reference for anyone working with ELL students Although the process was developed with the pediatric population in mind much of this information can be applied to older culturally and linguistically diverse populations in need of speech language and or hearing services It will also be useful to professionals working with language interpreters in allied health professions in other countries
