Morray-Jones,2009-06-17 This book brings together the perspectives of apocalypticism and early Jewish mysticism to illuminate aspects of New Testament theology The first part begins with a consideration of the mystical character of apocalypticism and then uses the Book of Revelation and the development of views about the heavenly mediator figure of Enoch to explore the importance of apocalypticism in the Gospels and Acts the Pauline Letters and finally the key theological themes in the later books of the New Testament The second and third parts explore the character of early Jewish mysticism by taking important themes in the early Jewish mystical texts such as the Temple and the Divine Body to demonstrate the relevance of this material to New Testament interpretation **The Radical Teaching of Jesus** Duncan S. Ferguson,2016-01-18 The Radical Teaching of Jesus carefully and thoughtfully invites the reader into an understanding of the life and teachings of Jesus Both his life and teachings are radical in that Jesus intended those who observed his life and heard his teachings to make a major change in their lives by fully receiving the power and presence of

God The implications of this transformation would result in a life of loving God with heart and mind and one's neighbor without condition This volume underlines that to have a full understanding of the implications of the radical teaching of Jesus requires a careful reading of the history of the Gospel records of the circumstances in which Jesus lived and of Jesus sense of vocation This understanding makes possible a more credible and nuanced grasp of the style and content of the life and teaching of Jesus and its extraordinary relevance for our rapidly changing and troubled global context The book speaks poignantly both to those within the Christian family who find traditional categories regarding Jesus increasingly difficult to affirm and to those of other faith traditions or religious unaffiliated who seek an authentic spiritual way **The Religious**

itself with the unusual task of creating links between the symbolic representations of gender in the philosophy of Tibetan Buddhism and contemporary western thinking in relation to identity politics and intersubjectivity A wide range of sources are drawn upon in order to build up arguments concerning the complexities of individual gender roles in Tibetan society alongside the symbolic spaces allocated to the male and female within its cultural forms including its sacred institutions its representations and in the enactment of ritual And in the light of Tibetan Buddhism's popularity in the west timely questions are raised concerning gender and the potential uses and abuses of power and secrecy in Tibetan Tantra which with its unique emphasis on guru devotion and sexual ritual is now being disseminated worldwide What is made clear in this new edition however is that Campbell's ultimate aim is to elucidate through the use of a psychoanalytical perspective something of the dynamic inter relationship between the inner lives of individuals their gender identities in society and the belief systems which they create in order to provide cohesion continuity and meaning whether it be in the east or the west
