Shame and Ageing in a Transforming World Elisabeth Vanderheiden,Claude-Hélène Mayer,2024-05-23 The book provides a comprehensive overview of research and concepts related to shame and ageing in the context of social change upheavals and paradigm shifts from transdisciplinary cultural and transcultural perspectives Drawing upon the editors previous works on the topic of shame this volume discusses the contexts of shame and ageing from theoretical conceptual and empirical perspectives The toxic and stressful aspects of shame have been the focus of scientific analysis and discourse on shame and ageing This volume explicitly makes the dimensions of shame a resource for individuals and collective transformation processes the object of research in the context of ageing It looks at emerging lifestyle political socio economic and health contexts It looks at how and why the frequency intensity and handling of feelings of shame change over the course of life the impact of shame on emotional well being and mental health of older people the impact of shame on social relationships and social engagement of older people in different cultures the role of cultural values and norms in the development and processing of feelings of shame especially in older people and how these can be used for self development and the differences in the way older people in different cultures deal with feelings of shame and the way these can be used to develop effective strategies and techniques for older people to cope with shame The editors and contributors thereby take cultural and gender aspects as well as positive psychology and resource orientated concepts such as salutogenesis resilience happiness fortitude locus of control faith or strengths based approaches into account and contextualize them against processes of social upheaval and transformation New Histories of South Africa's Apartheid-Era Bantustans Shireen

Ally,Arianna Lissoni,2017-06-26 The bantustans or homelands were created by South Africa s apartheid regime as ethnically defined territories for Africans Granted self governing and independent status by Pretoria they aimed to deflect the demands for full political representation by black South Africans and were shunned by the anti apartheid movement In 1972 Steve Biko wrote that politically the bantustans are the greatest single fraud ever invented by white politicians With the end of apartheid and the first democratic elections of 1994 the bantustans formally ceased to exist but their legacies remain inscribed in South Africa s contemporary social cultural political and economic landscape While the older literature on the bantustans has tended to focus on their repressive role and political illegitimacy this edited volume offers new approaches to

the histories and afterlives of the former bantustans in South Africa by a new generation of scholars This book was originally published as various special issues of the South African Historical Journal **Child Injury Prevention** David C.

Glenda Kruss,2005 Exploring how network practices have begun to penetrate higher education and industry in South Africa this study looks at the three high technology fields that are most likely to generate benefits for South Africa information and communication technology ICT biotechnology and new materials development *From Nowhere to Somewhere* Dr. K P

Mokhobo,2013-03-19 I wrote a personal story motivated by the urge to chronicle what struck me as a unique and unusual developmental social and professional life I hope the story will interest the readers I certainly relished the nostalgia and recollections of the past from the humble beginnings and reaching the top with success in a manner from which the origins cannot be told or surmised The purpose is not to glorify poverty nor encourage social upbringing in an environment devoid of parental support but to indicate the inherent resilience of a human being It is possible to survive and succeed despite adverse circumstances if among other factors one gets lucky breaks or your journey enjoys fortunate events In my case success was certainly almost entirely the result of lucky strokes and unexplained events which came to the rescue at the right time and in the correct manner The morrow was miraculously shaped without concerted planning Assistance that came from various unsolicited quarters testified to inherent good nature of people In many a situation similar to mine the environment can be a fatal and destructive derailment One had to have the ability to learn quickly and to have the potential to avoid pitfalls **Black Student Politics, Higher Education and Apartheid** Saleem Badat,1999 Black Student Politics

Higher Education and Apartheid examines two black national student political organisations the South African National Students Congress SANSCO and the South African Students Organisation SASO popularly associated with Black Consciousness It analyses the ideologies politics and organisation of SASO and SANSCO and their intellectual political and social determinants It also analyses their role in the educational political and social spheres and the factors that shaped their activities Finally it assesses their contributions to the popular struggle against apartheid education as well as against race class and gender oppression **Language and Institutional Identity in the Post-Apartheid South African Higher Education** Leketi Makalela,2022-03-21 This book examines the intersections between education identity formation and

language in post apartheid South Africa with specific attention to higher education It does so against the backdrop of the core argument that the sector plays a critical role in shaping re producing and perpetuating sectoral class sub national and national identities which in turn in the peculiar South African setting are almost invariably analogous with the historical fault lines determined and dictated by language as a marker of ethnic and racial identity The chapters in the book grapple with the nuances related to these intersections in the understanding that higher education language policies overt and or covert largely structure institutional cultures or what has been described as curriculum in higher education institutions Together

the chapters examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing and perpetuating or deconstructing ethnolinguistic identities upon which the sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education

Impact of Thermal Conductivity on Energy Technologies Aamir Shahzad,2018-09-05 This book is intended to provide a deep understanding on the advanced treatments of thermal properties of materials through experimental theoretical and computational techniques This area of interest is being taught in most universities and institutions at the graduate and postgraduate levels Moreover the increasing modern technical and social interest in energy has made the study of thermal properties more significant and exciting in the recent years This book shares with the international community a sense of global motivation and collaboration on the subject of thermal conductivity and its wide spread applications in modern technologies This book presents new results from leading laboratories and researchers on topics including materials thermal insulation modeling steady and transient measurements and thermal expansion The materials of interest range from nanometers to meters bringing together ideas and results from across the research field

The Impact of HIV/AIDS on the Health Sector ,2003 This series of studies provides answers to three broad questions To what extent does HIV AIDS affect the health system in South Africa What aspects or subsystems are most affected and How will the impact progress over time Health personnel and ambulatory and hospitalised patients across the nine provinces of South Africa were surveyed Specific questions addressed issues such as loss of staff due to illness absenteeism low staff morale and increased patient load Taking into account the anticipated increase in patient load in the public and private sector health facilities in South Africa the study makes recommendations not only for managing the HIV AIDS case load but also for the care and services provided to people with HIV AIDS in South Africa
