Mega Sports Camp 2013:

Legacy, Sustainability and CSR at Mega Sport Events Pierre Lienhard, Holger Preuss, 2014-07-05 The UEFA European Football Championship 2008™ EURO 2008 was the largest sports event ever organized in Switzerland. The host nations Austria and Switzerland emphasized the sustainability of the event. Through their analysis, the authors argue that well-known principles of sustainability and policy were not uniformly implemented for the EURO 2008. Nonetheless, this book shows how in Switzerland a legacy was created through the implementation of corporate governance and social responsibility policies by UEFA, the Swiss Government, and the Swiss Football Association. This book offers an unprecedented resource for sports practitioners and researchers. It provides a wealth of data based on the study of existing scholarly literature, key strategic and conceptual documents, as well as exclusive interviews with high-level executives involved in the organization of EURO 2008.

The Sport Mega-Events of the 2020s Jan Andre Lee, Ludvigsen, Joel Rookwood, Daniel Parnell, 2023-10-31 This book explores various social, cultural, political, and economic issues through the lenses of various sport mega-events in the twenty-first century, including the Olympic Games and the World Cup and European Championships in football. In a time where sport mega-events are closely followed by controversies, legacy discourses, and questions of their governance, the chapters within this book showcase why sport mega-events continue to ignite important questions for scholars, commentators, fans, and sport and political authorities. By covering various topics emerging around sport mega-events such as physical activity, legacies, rhetoric, media coverage, environmental impacts, diplomacy, and spectators' experiences, this book breaks new ground as it considers a range of longstanding and emerging socio-political issues relating broadly to the staging of spectacular sport mega-events in the present day. This is a fascinating reading for students and researchers situated in sociology, sport management, event management, political science, sport studies, sport business, urban studies, and leisure studies. The chapters in this book were originally published as a special issue of *Sport in Society*.
Sport Tourism Development James Higham, Tom Hinch, 2018-04-23 This book critically explores sport-related tourism, drawing on the fields of sport management, the sociology of sport, consumer behaviour, sports marketing, economic urban and sports geography, and tourism studies. It presents multidisciplinary perspectives of sport tourism as structured by the geographical concepts of space, place, and environment. The volume offers a comprehensive update of the discussions presented in the two previous editions, recognising the significant growth in sub-elite participation sports and addressing spectator-based sport events, participation-based sport events, active sport, and sport heritage activities. It aims to advance theoretical thinking on the subject of sport tourism development and critical thinking on the interplay of local and global forces in sport and tourism development. It continues to be an important text for students and researchers in tourism studies, human geography, sports geography, sociology of sport, sports management, sports marketing, and history of sport.
Mega-Events, City and Power Nelma Gusmão de Oliveira, 2020-10-21 This book examines the power relations that emerge from the convergence of the universe in which the

sporting spectacle is produced and the universe in which a city is produced It adopts Bourdieu's concept of field to explore the interests and disputes involved in the production of sports mega events across different times and spaces and the role of host cities in these processes It aims to identify the bases that give these spectacles the power to produce disruptions in the social fabric of the host cities and countries and to enable the production of authoritarian forms of exercising power By observing the historical constitution of the field of production of sport spectacle as an autonomous field this book explores how sport mega events create both an arena and a context for radical expressions of authoritarianism of neoliberal planning models It will be of interest to students scholars and professionals in architecture and urban studies urban planning municipal governance sport and leisure studies and those interested in the relationship between State and capital in the production of urban space

Sport and Architecture Benjamin S. Flowers, 2017-05-08 Sport and architecture are two elements of contemporary life that have a broad and profound impact on the world around us The role architecture plays in shaping buildings and societies has occupied historians for centuries Likewise the cultural economic and political importance of sport is the subject of sustained academic inquiry When sport and architecture converge as in the 2012 London Olympics or the 2014 World Cup in Brazil then the impact of these two forms of social activity is redoubled This book presents a new and dynamic study of the complex relationship between sport and architecture It explores the history of sport architecture and examines the buildings and events that create sites where sport and architecture converge in particularly telling ways Its chapters discuss the following topics sport architecture and urban redevelopment sport architecture and technology sport architecture and nationalism sport architecture as social activism sport architecture and global capitalism By considering the importance of architectural form alongside these key themes this book represents a landmark study for anybody interested in the social and cultural significance of architecture or sport

Human Rights and Events, Leisure and Sport Jayne Caudwell, Darragh McGee, 2020-05-21 This edited book aims to capture the functioning of human rights and civil activism at the level of the relationships between the individual and the social and in relation to abuses contestations and transformations Chapters cover the ways human rights are denied articulated and not realised Mega events either sporting or otherwise e.g. Gay Pride tend to be the focus of this inquiry although there are important contributions on grassroots non governmental organisations Overall a range of research methodologies are deployed the chapters vary between using primary research using commissioned research and presenting theoretically grounded arguments The tendency is towards approaches that capture the empirical everyday experiences e.g. ethnography autoethnography interviews focus groups and observation This book was originally published as a special issue of *Leisure Studies*
