

Final Year Project Proposal (228.485, 2011)

Title: Assignment Marking Application for the iPad

Supervisor: Dr Eva Heinrich

Project Description

The tertiary sector is in a state of transition from paper-based assignment submission and marking to electronically supported assignment submission and marking. Electronic assignment submission has many advantages over paper submission, for example in convenience for students, avoidance of postal delays and automated bookkeeping. When it comes to reading student work and marking, teachers are still divided in their preferences. Some prefer reading paper documents, while others do not mind or even prefer to read student work onscreen. One of the arguments that is brought forward in support of paper is about 'feel' and 'directness'. For example, the teacher can touch the paper, point at a section, and write directly on it. While some applications used for marking, like PDF annotation software or Word track changes, replicate the paper interaction to a certain degree, the feel for the user is very different. New devices like the iPad open up new possibilities in interacting with electronic documents. This project is about exploring how an iPad could be used to come closer to the real or perceived advantages of paper in the context of assignment marking.

One aspect of the project would be to explore how the user interface capabilities of the iPad facilitate direct interaction of student work, for reading student work, for annotating student work with information supporting the marking process and for providing feedback to students that is linked closely into the document. Marker input will be an important aspect of this work. This will likely go beyond typing and should explore the possibility of audio input.

Project Context

This project fits into the wider context of the Lightwork project (<http://lightworkmarking.org>). Lightwork is a Moodle compatible open source application for the management and marking of assignments. Lightwork is a Java-based application that provides support for marking (e.g., marking rubrics) and the management of marking teams. Lightwork contains its own PDF Annotator for the direct annotation of student work.

The final year project could interface with Lightwork, for example in providing a 'lite' Lightwork client that deals specifically with marking of student work without performing the setup or management tasks required for assignment marking.

Final Year Project Proposal Report Introduction

In the digital age, access to information has become easier than ever before. The ability to download Final Year Project Proposal Report has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Final Year Project Proposal Report has opened up a world of possibilities. Downloading Final Year Project Proposal Report provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Final Year Project Proposal Report has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Final Year Project Proposal Report. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Final Year Project Proposal Report. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Final Year Project Proposal Report, users should also consider the potential

security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Final Year Project Proposal Report has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
