Forest Hill Paper Company Activity Based Cost:

Forest Hill Paper Company Thomas L. Albright, 2008 The Forest Hill Paper Company case is based on the author's experience with cost system design at various paper manufacturing plants. The case provides a background discussion of the industry competitive environment and manufacturing process. Thus students have a realistic context in which to study the principles of activity based costing. The case requires students to develop product cost calculations using the company's traditional system. Next students design a simple two stage allocation system having three cost pools. The case asks students to compare the activity based cost calculations with the cost calculations from the traditional system. Finally students make recommendations to management based on their knowledge obtained from the improved cost system. Strategic Finance, 1999 Business Periodicals Index, 1999 Managerial Accounting Robert W. Ingram, Thomas L. Albright, John W. Hill, 2003 Providing a realistic presentation of managerial accounting this text presents it as a key communication process for management decision making.
