The Internet: A Great Invention

INTRODUCTION

The Internet has changed the way we live. It started as something that we could access only through a computer, but nowadays it is everywhere, and I love it!

ONE THING I LIKE *find answers*

One of the cool things about the world wide web is that you can look up anything you want and find out the answer straight away. Isn't that fantastic? For example, imagine you are arguing with your friends about how to do something. Easy solution: go online and find the answer!

WHAT I LIKE BEST *learn stuff cheaply & RECOMMENDATION www.udemy.com*

However, the greatest thing about the Internet is how you can learn tons of things very cheaply or even for free! In fact, my favourite website is www.udemy.com, where people register to teach and learn about different things: music, website design, making apps, history, etc. So I totally recommend it to everyone!

CONCLUSION

In conclusion, the Internet has a lot of great things. For me, the best are finding information and learning online. What about you? What are your favourite things about it?
