Sustainable

Communities Hugh Barton,2013-12-02 This book re addresses the concepts of neighbourhood and community in a refreshing and challenging way It will be of immense benefit not only to town planners but also to al those professional and voluntary groups and politicians who seek to create the new communities of tomorrow From the Foreword by Jed Griffiths Past President of the Royal Town Planning Institute There is widespread support for the principle of creating more sustainable communities but much hazy wishful thinking about what this might mean in practice In reality we witness more the death of local neighbourhoods than their creation or rejuvenation reflecting an increasingly mobile privatized and commodified society Sustainable Communities examines the practicalities of re inventing neighbourhoods It is neither an idealistic utopian tract nor a designer s manual but is rather a serious attempt to address the real issues This collection of expert contributions examines the nature of local community and methods of building social capital presents the findings of a world wide survey of eco neighbourhoods and eco villages with case studies from the United Kingdom Europe America and Australia develops a fresh perspective on the planning and design of neighbourhoods in urban areas based on the eco system approach explores practical programmes for local resource management and the implications for community based decision making provides a detailed appendix listing current eco village and eco neighbourhood schemes by country Written by an interdisciplinary team of social and environmental scientists town planners and urban designers this is a thought provoking and important contribution to both the theory and practice of the development of sustainable communities

Poverty

Alleviation and Environmental Law Yves Le Bouthillier,Miriam Alfie Cohen,Jose Juan Gonzalez Marquez,Albert

Mumma,Susan Smith,2012-01-01 The alleviation of poverty and the protection of the environment are both critical challenges for the vindication of basic human rights for all of humankind This relationship is however not necessarily an easy one While there is an inextricable link between poverty and the degradation of the environment a sophisticated analysis of a problem needs to deal with those cases where the need to increase economic opportunity for poor communities may appear to conflict with fragile ecosystems or the preservation of traditional practices This collection provides the most sustained engagement with these problems Drawing on the expertise of a range of distinguished authors this book presents the reader with an integrated global engagement with these problems In doing so it represents a landmark effort towards the creation of a

coherent literature to deal with one of humankind's most pressing challenges Dennis Davis Judge of the High Court South Africa The complex uneven and challenging relationships between poverty alleviation and environmental regulation are impossible to trace in a single book but this collection brings a carefully selected set of policy relevant context responsive practical legal analyses to bear in a fresh examination of the present and future challenges involved This is a timely contribution in the search for regulatory responses that alleviate rather than exacerbate the myriad forms of adaptation apartheid now so painfully evident in the relationship between poverty injustice and environmental degradation Anna Gear University of Waikato New Zealand The subject of poverty cannot be ignored by environmentalists as the poor are the most affected by the diverse impacts of environmental degradation and climate change such as on water natural resources and cultural heritage sites In addition slum dwellings exacerbate the plight of the poor The book is a collection of diverse topics by renowned environmental legal experts which deal with the relationship between the alleviation of poverty and the protection of the environment Each writer addresses the challenges raised in various issues and recommends solutions which range from linking with human rights the need for public participation the role of environmental courts and other mechanisms Koh Kheng Lian National University of Singapore This timely book explores the complex relationship between the alleviation of poverty and the protection of the environment There is every reason to believe that these issues are in many ways interdependent However this book demonstrates that there are situations where alleviation of poverty and the protection of the environment appear to be in a fraught relationship The contributing authors illustrate that the role played by law in this relationship whether at the international or national level will vary depending on the situation and will be more successful at pursuing environmental justice in some cases than in others This interdisciplinary study will appeal to academics and students in environmental law and other environmental disciplines environmental policymakers and NGOs interested in issues of poverty environment and indigenous peoples Basics Landscape Architecture 02: Ecological Design Nancy Rottle, Ken Yocom, 2017-08-10 Basics Landscape Architecture 02 Ecological Design provides an overview of ecological design and planning for landscape architects It explores the concepts and themes important to the contemporary practice of ecological design and planning in a highly accessible and richly illustrated format Focusing primarily on urban environments this book examines the relationships between ecological design theory and design methods It describes and illustrates the basic structures and functions of natural and human systems through landscape ecology principles and the dynamics of landscape processes The European Neighbourhood Policy - Values and Principles Sara Poli, 2016-03-31 The European Neighbourhood Policy is a key part of the foreign policy of the European Union EU through which the EU works with its southern and eastern neighbours with a view to furthering its interests and achieving the closest possible degree of political association and economic integration The policy is underpinned by a set of values and principles that the EU seeks to promote The European Neighbourhood Policy Values and Principles carries out a legal analysis of the values and principles

that form the basis for the European Neighbourhood Policy respect for human dignity freedom democracy equality the rule of law and respect for human rights including the rights of minorities plus the principles of conditionality differentiation and coherence This collection explores the instruments that the EU has deployed under the European Neighbourhood Policy to spread its values and to achieve its interests It assesses to what extent the EU has been and is consistent in upholding its values in its relations with neighbouring countries and examines how these values have been received by these countries The book looks in particular at the nature of EU Russia relations seeking to identify areas of common interest as well as those of actual and potential disagreement
