Unit Test, Part II: Surface Area and Volume

Show answers clearly on separate paper, showing all of your work. Be sure to label units when asked with your answer. Use 3.14 for π unless told otherwise. If a label is asked, your answer should include it. The label for the number is also asked.

Remember that sometimes a cone is shown without a label, so you should be given something that also tells you the label.

Find the area of the cone.

Find the volume of the cone.

1. Consider the pyramid:

Understanding by Design Grant P. Wiggins, Jay McTighe, 2005 What is understanding and how does it differ from knowledge How can we determine the big ideas worth understanding Why is understanding an important teaching goal and how do we know when students have attained it How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high stakes standards based environment Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design* Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998 the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum assessment and instruction With an improved UbD Template

at its core the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks Readers will learn why the familiar coverage and activity based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning With an expanded array of practical strategies tools and examples from all subject areas the book demonstrates how the research based principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum Combining provocative ideas thoughtful analysis and tested approaches this new edition of Understanding by Design offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike

Fine, Steven R. Alexander, Bradley A. Warady, 2012-12-06. During the past quarter century there has been a renaissance of interest in the use of peritoneal dialysis as the primary dialytic modality for the treatment of children with end stage renal disease (ESRD). The development of continuous ambulatory peritoneal dialysis (CAPD) has facilitated the provision of prolonged dialysis to infants.

children and adolescents and has provided pediatric nephrologists worldwide with a real opportunity to administer effective dialysis therapy to all patients afflicted with ESRD. It has been more than a decade since the initial publication of CAPD CCPD in Children. In the interim, a great deal of clinical experience with patients receiving peritoneal dialysis has been accumulated, and research efforts have substantially increased our understanding of the technique. Therefore, we felt that a second edition of CAPD CCPD in Children was propitious to update the advances of the past decade.
