Spirituality in diversity: South East Asia meets South Africa - Towards a global view of Spiritual Counselling

Ulrike Elsdörfer, 2019-12-12 The purpose of this book is to introduce the special phenomenon of Spiritual Counselling as it is practised by Christians in South East Asian countries in the last 50 years Reference is also made to the current theory and practice of Spiritual Care and Counselling especially as a practice of Christian churches in different countries predominantly in Indonesia Previously it was noticed that there was a lack of knowledge on the above mentioned field at least in the European context but also globally The author is part of an academic exchange on the subject of Spiritual Counselling between the two regions described Indonesia India and Japan attached and South Africa The latter is looked at with special regard to Spiritual and or Pastoral Counselling The theological frame of reference is Public Theology It lays foundations explores and designs the social implications of religious work especially in multi religious societies The book does not aim at giving a perfect survey of the current state of research in the field It is based on encounters with colleagues interviews and

documents *Mobile Broadband Communications for Public Safety* Ramon Ferrús, Oriol Sallent, 2015-08-07 This book provides a timely and comprehensive overview of the introduction of LTE technology for PPDR communications. It describes the operational scenarios and emerging multimedia and data-centric applications in demand and discusses the main techno-economic drivers that are believed to be pivotal for an efficient and cost-effective delivery of mobile broadband PPDR communications. The capabilities and features of the LTE standard for improved support of mission-critical communications, e.g. proximity services, group communications, are covered in detail. Also, different network implementation options to deliver mobile broadband PPDR communications services over dedicated or commercial LTE-based networks are discussed, including the applicability of the Mobile Virtual Network Operator (MVNO) model and other hybrid models. Radio spectrum matters are also discussed in depth, outlining spectrum needs and providing an outlook into allocated and candidate spectrum bands for PPDR communications and suitable dynamic spectrum sharing solutions in PPDR communications. Explanations are accompanied by a vast collection of references that allow the more intrigued reader to gain further insight into the addressed topics.
