Goodell, Selma Koç, 2020-09-01 STEM project based instruction is a pedagogical approach that is gaining popularity across the USA However there are very few teacher education programs that focus specifically on preparing graduates to teach in project based environments This book is focused on the UTeach program a STEM teacher education model that is being implemented across the USA in 46 universities Originally focused only on mathematics and science many UTeach programs are now offering engineering and computer science licensure programs as well This book provides a forum to disseminate how different institutions have implemented the UTeach model in their local context Topics discussed will include sustainability features of the model and how program assessment innovative instructional programming classroom research and effectiveness research have contributed to its success The objectives of the book are To help educators gain insight into a teacher education organizational model focused on STEM and how and why it was developed To present the theoretical underpinnings of a STEM education model i e deep learning conceptual understanding To present innovative instructional programming in teacher education i e projectbased instruction functions and modeling research methods To present research and practice in classroom and field implementation and future research recommendations To disseminate program assessments and improvement efforts *Grade Booster CBSE Question Bank (Solutions of RD Sharma) Class 12* Munish Sethi, 2025-09-24 Grade Booster CBSE Question Bank Solutions of RD Sharma Class 12 This book offers complete step by step solutions to RD Sharma Mathematics Class 12 aligned with the CBSE curriculum Each chapter is explained clearly with solved examples practice questions and exam oriented tips Designed for board exam preparation and competitive exams like JEE it enables students to strengthen conceptual understanding and sharpen problem solving skills *Transparency in Assessment – Exploring the Influence of Explicit Assessment Criteria* Anders Jönsson, Frans Prins, 2019-04-03 In many schools and higher education institutions it has become common practice to share assessment criteria with students Sometimes it is required for accountability purposes at other times criteria are used as a means to communicate expectations to students However the idea that explicit assessment criteria should be shared with students has been contested On the one hand research has shown that explicit criteria may positively affect student performance reduce their anxiety as well as support students use of self regulated learning strategies On the other hand there are fears that explicit criteria may have a restraining influence on students learning as well as limiting their autonomy and creativity There are also indications of

students becoming more performance oriented as opposed to learning oriented when being provided with explicit assessment criteria Taken together it is not fully understood under which circumstances it is productive for student learning to share explicit assessment criteria and under which circumstances it is not In particular empirical research on the proposed negative effects of sharing criteria with learners is limited and most fears voiced in the literature are based on individual experiences and anecdotal evidence In this book we therefore bring different perspectives on transparency in assessment together in order to further our understanding of how students are influenced by the use of explicit assessment criteria A deeper understanding of the influence of explicit assessment criteria on students understanding of criteria motivation and learning is equally imperative for future research and educational practice both of which need to go beyond individual opinions and convictions
