Social Justice and Transformative Learning Saundra M. Tomlinson-Clarke,Darren L. Clarke,2016-03-10 The similarities between the United States and South Africa with respect to race power oppression and economic inequities are striking and a better understanding of these parallels can provide educational gains for students and educators in both countries Through shared experiences and perspectives this volume presents scholarly work from U S and South African scholars that advance educational practice in support of social justice and transformative learning It provides a comprehensive framework for developing transformational learning experiences that facilitates leadership for social justice and a deeper understanding of the factors influencing personal national and global identity

Science Education in Canada Christine D. Tippet,Todd M. Milford,2019-07-01 This book offers a meso level description of demographics science education and science teacher education Representing all 13 Canadian jurisdictions the book provides local insights that serve as the basis for exploring the Canadian system as a whole and function as a common starting point from which to identify causal relationships that may be associated with Canada s successes The book highlights commonalities consistencies and distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction specific chapters Although the analysis indicates a network of policy and practice issues warranting further consideration the diverse nature of Canadian science education makes simple identification of causal relationships elusive Canada has a reputation for strong science achievement However there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education This book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing

issues for Canadian science education *School Science Practical Work in Africa* Umesh Ramnarain, 2020-06-01 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning, and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers, and postgraduate students in the fields of science education and educational policy.

Handbook of Research on Science Teacher Education Julie A. Luft, M. Gail Jones, 2022-04-26 This groundbreaking handbook offers a contemporary and thorough review of research relating directly to the preparation, induction, and career-long professional learning of K-12 science teachers. Through critical and concise chapters, this volume provides essential insights into science teacher education that range from their learning as individuals to the programs that cultivate their knowledge and practices. Each chapter is a current review of research that depicts the area and then points to empirically based conclusions or suggestions for science teacher educators or educational researchers. Issues associated with equity are embedded within each chapter. Drawing on the work of over one hundred contributors from across the globe, this handbook has 35 chapters that cover established, emergent, diverse, and pioneering areas of research, including research methods and methodologies in science teacher education, including discussions of the purpose of science teacher education research and equitable perspectives. Formal and informal teacher education programs that span from early childhood educators to the complexity of preparation to the role of informal settings such as museums. Continuous professional learning of science teachers that supports building cultural responsiveness and teacher leadership. Core topics in science teacher education that focus on teacher knowledge, educative curricula, and working with all students. Emerging areas in science teacher education such as STEM education, global education, and identity development. This comprehensive in-depth text will be central to the work of science teacher educators, researchers in the field of science education, and all those who work closely with science teachers.

Education Research in Belize for Belizeans Alberto Luis August, 2022-01-28 This book consists of twenty-one empirical studies in the field of education conducted in the Belizean context by Belizean educators. It covers a variety of topics across various levels of education across the six districts in Belize. Each research study article consists of a background that introduces the topic of the study, a brief literature review, informs the reader of the conceptual or theoretical framework of the study, the methodology presents the approach, research design, sample, and data collection procedures. The results section shares the raw data collected from the participants. The

findings are discussed to bring the study together and it incorporates content from the literature review in the discussion. Conclusions are drawn and recommendations are made as a result of the conclusions. Each study suggests implications for best practices across the different topic areas. The conclusions of each research study can aid in the development of education policies to enhance the Belize education system.
