Henshall,Junji Kawai,2012-02-09 This is a concise and user friendly introduction to the Japanese language Japanese has too often been treated by Westerners as an exotic curiosity but the reality is that it is a functional language spoken as a mother tongue by more than 125 million people and ranks as the ninth most spoken language in the world In the present global age an age characterized by a vast range of Japanese products including electronic games and anime more and more Westerners are in one way or another interacting with Japan and Japanese people But it is nonetheless fair to say that the language while increasing in popularity as a subject of study is still not as widely spoken among non Japanese as we might expect In this book we would therefore like to demistify Japanese to show how the language is formed and used and to encourage you to pursue the study of it Of course it has its challenges especially with regards to the writing system but we try to put these in a balanced context And we like to think that by describing the various facets of the Japanese language to you we thereby empower you with a degree of knowledge and familiarity 日本語の基礎から学ぶ CD-ROM 日本語,2007-02 **Writing and Literacy in Chinese,**
