experience It was inspired by the steady stream of non fishing adults faced with youngsters clamoring to go fishing and needing advice It s not your typical guide and it emphasizes critical thinking and strategy formation as the route to sucessful fishing It downplays buying tackle but It covers enough about rods reels lines hooks and baits to get you started well without breaking the budget It provides basics about fish and their ecosystems and presents the fishing trip as a chance to observe puzzle out the individual habitats and figure out where the fish are It also encourages further exploration and research It s all written at a level that youngsters will understand and enjoy but the content is not kid stuff Scattered black and white only illustrations make it environmentally friendly and add interest at strategic points It is gender neutral and emphasizes safety social responsibility and a good conservation ethic It will inspire days of exercising body and mind and interacting constructively with the outdoors It makes a great gift for youngsters and might just rescue the uninitiated adults drafted for supervisory duty
