Gusmano, 2018-09-14 This book analyzes policy fights about what counts as good evidence of safety and effectiveness when it comes to new health care technologies in the United States and what political decisions mean for patients and doctors Medical technologies often promise to extend and improve quality of life but come with many questions Are they safe and effective Are they worth the cost When should they be allowed on the market and when should Medicare Medicaid and private insurance companies be required to pay for drugs devices and diagnostic tests Using case studies of disputes about the value of mammography screening genetic testing for disease risk brain imaging technologies to detect biomarkers associated with Alzheimer's disease cell based therapies and new expensive drugs Maschke and Gusmano illustrate how scientific disagreements about what counts as good evidence of safety and effectiveness are often swept up in partisan fights over health care reform and battles among insurance and health care companies physicians and patient advocates **Debating Modern Medical Technologies The Politics of Safety Effectiveness and Patient Access** reveals stakeholders differing values and interests regarding patient choice physician autonomy risk assessment government intervention in medicine and technology assessment and scientific innovation as a driver of national and global economies It will help readers to understand the nature and complexity of past and current policy disagreements and their effects on patients **Ethics in**

the University James G. Speight, 2016-08-26 It is the continuous reports of unethical behavior in the form of data manipulation cheating plagiarism and other forms of unacceptable behavior that draw attention to the issues of misconduct The causes of misconduct are manifold whether it is the need to advance in a chosen discipline or to compete successfully for and obtain research funding Disappointingly individuals who are oriented to any form of dishonesty are individuals who had previously displayed little or no consideration for the feelings of others and are therefore more interested in themselves at the expense of the students and others recognizing them by any means necessary This ground breaking and honest examination of ethics in the university setting is unabashed in its descriptions of misconduct in the academic world The text is well furnished with numerous citations that point to academic misconduct and the final chapter deals with the means by which misconduct can be mitigated a strong reminder to everyone in the academic community that above board conduct must be part of our overall message of learning and part of the whole point of education in the first place A must have for academics and non academics alike this text is the second in a series of books on ethics by James G Speight and it is useful to anyone in any industry who is interested in ethical behavior and how to navigate the sometimes murky depths of our

professional lives

Nostalgia after Apartheid Amber R. Reed,2020-11-30 In this engaging book Amber Reed provides a new perspective on South Africa s democracy by exploring Black residents nostalgia for life during apartheid in the rural Eastern Cape Reed looks at a surprising phenomenon encountered in the post apartheid nation despite the Department of Education mandating curricula meant to teach values of civic responsibility and liberal democracy those who are actually responsible for teaching this material and the students taking it often resist what they see as the imposition of white values These teachers and students do not see South African democracy as a type of freedom but rather as destructive of their own African culture whereas apartheid at least ostensibly allowed for cultural expression in the former rural homelands In the Eastern Cape Reed observes resistance to democracy occurs alongside nostalgia for apartheid among the very citizens who were most disenfranchised by the late racist authoritarian regime Examining a rural town in the former Transkei homeland and the urban offices of the Sonke Gender Justice Network in Cape Town Reed argues that nostalgic memories of a time when African culture was not under attack combined with the socioeconomic failures of the post apartheid state set the stage for the current political ambivalence in South Africa Beyond simply being a case study however Nostalgia after Apartheid shows how in a global context in which nationalism and authoritarianism continue to rise the threat posed to democracy in South Africa has far wider implications for thinking about enactments of democracy Nostalgia after Apartheid offers a unique approach to understanding how the attempted post apartheid reforms have failed rural Black South Africans and how this failure has led to a nostalgia for the very conditions that once oppressed them It will interest scholars of African studies postcolonial studies anthropology and education as well as general readers interested in South African history and politics

Moving the Needle on Children's Physical Activity - How to Best Promote More Movement? Mirko Brandes ,Jennifer Sacheck,2024-07-24 Globally physical inactivity is on the rise in most countries and according to the WHO it is considered one of the leading major public health risks As children s physical activity behaviors are conveyed into adulthood many interventions focus on establishing healthy physical activity habits in children to prevent the potential negative health outcomes associated with low physical activity over the life course The school environment provides an opportunity to reach the majority of children however physical activity promotion in schools can often be a challenge Barriers to the success of physical activity interventions include the physical social and economic environment competencies and

workload of teachers as well as the perception that physical activity may interfere with the primary task of schools which is education Moreover the evaluation of physical activity interventions for children is challenging raising a discussion on how to best evaluate these interventions
