Perfect for investigators, medical students, and faculty practitioners, policymakers, and others who need to refine their understanding of or approach to systematic reviews, this powerful text goes beyond merely teaching how to catalog and collect, helping readers learn to evaluate, synthesize, and deliver results that will help shape the practice of health care. **Questions and Answers**

for the Diploma in Occupational Medicine, revised edition Clare Fernandes, Karen Nightingale, 2021-08-21 This book is designed to help candidates prepare for the MCQ part of the Diploma in Occupational Medicine exam. The first 150 questions, along with their answers and explanations, are designed to help readers check their understanding. This section of the book is broken down into the core subject areas on which you will be tested: Ethics and the law, Effects of work on health, Principles of occupational health, Clinical occupational health, Health and safety at work. The book also contains a complete mock practice exam of 60 questions together with answers and commentary. These questions follow the style of those in the exam and will help fully prepare candidates by allowing them to develop an understanding of how the exam questions work. Written by a GP Registrar and winner of the Faculty of Occupational Medicine's Mobbs Fellowship, who recently passed the exam and checked for accuracy by a Consultant in Occupational Medicine, this book is the ideal revision and practice guide for exam candidates. From reviews: As a recent DOccMed candidate, I consider this book to be a useful reference for those preparing for the written part of the diploma examination; it would be an excellent investment for anyone preparing for the exam.

Competencies in Sleep Medicine Kingman P. Strohl, 2014-01-11 *Competencies in Sleep Medicine* provides the knowledge and curriculum needed for a Sleep Medicine Training Program. The approach is consistent with the goals of the Accreditation Council for Graduate Medical Education (ACGME) which asks programs to develop specific and targeted approaches to each program that covers the material presented in the Training Program. Authored by leaders in the field, each chapter focuses on an area of knowledge and skills in sleep medicine and offers appropriate examples of instruction and assessment. These principles and protocols for training can be used by a program to address weaknesses, assess trainees in a standardized fashion, and provide additional measurable benchmarks. Those who judge trainee progress and achievement will find *Competencies in Sleep Medicine* to be the standard resource for defining and achieving student learning outcomes while encouraging autonomous learning.
