

# Analytical Essay Writing

## So, what is an analytical essay?

- It is a structured piece of writing which proves a thesis.
- It analyses a particular topic and provides evidence.
- It is persuasive. This is achieved through; language choice, evidence, structure and the way content is presented.
- It is formal, which means; sophisticated language, no abbreviations and definitely no slang or text talk.

## What is a thesis?

A thesis is your argument – it is what the whole essay is proving to be true. It is usually one sentence long.

## How is an essay structured?

Most essays have 5 paragraphs; the first is the introduction, the last is the conclusion, the three in the middle are called 'the body'.

Each of the 'body' paragraphs requires specific information. To help you remember, think about an acronym like TEES. **T** stands for Topic Sentence, **E** stands for Explain **E** is for Evidence and **S** stands for Sum it Up.

*Note: More information can be found on the next page.*

## The essay planning process

**Step 1:** work out what the task is...have you been given a thesis, or do you have to write your own? If you have been given one, move on to step 2. If you have to write your own, start by looking at the question - do you agree or disagree? Do you have an opinion that you think you could argue effectively? Draft a thesis that you feel sums up your thoughts.

**Step 2:** Your thesis is your argument, so the next thing to think about is the answer to the question 'why?'. WHY is your thesis true? Brainstorm some ideas. Make these fairly general.

**Step 3:** Narrow down your ideas to three central points. You will use these to create your topic sentences for the body of your essay.

**Step 4:** Find evidence to support these central points. In terms of an English Analytical Exposition, evidence means specific quotes from your text, with page numbers.
