Governing Texas Anthony Champagne, Edward J. Harpham, 2013 A new Texas politics book with a proven approach
Governing Texas Champagne, 2013-03-15 **Hope for Justice and Power** Kathleen Staudt, 2020-03-15 Texas based affiliates in the Industrial Areas Foundation IAF built on ideas principles and actions from the late Saul Alinsky offer a strong mature organizing model compared with other community organizations in the state and the United States as a whole IAF affiliates members consist of institutions most of them faith based congregations and synagogues Local volunteer leaders in those institutions work together in relationships of trust that draw strength unity and purpose from IAF principles and the social justice precepts of their different faiths In *Hope for Justice and Power* Kathleen Staudt examines the twenty first century activities of the Texas IAF in multiple cities and towns around the state drawing on forty years of academic teaching and on twenty years of active leadership experiences in the IAF She identifies major contradictions tensions and their resolutions in IAF organizing related to centralism versus local control reformist versus radical goals stable revenue generation greater gender balance in leadership and evolving IAF principles The political context in modern Texas is a challenging one compared to the Texas IAF founding period in the last quarter of the twentieth century yet local IAF volunteer leaders achieve their goals with a strong political base in divergent urban regions around the state With declining religious affiliation in U S society the Texas IAF has begun to recruit members from broad based institutions such as schools and health clinics The hope and winnable goals that sustain IAF organizing show the importance of organized power trained volunteer leaders and relationships with public officials in between elections With cross class alliances IAF affiliates work to foster equitable change toward a more just society To analyze the Texas IAF Staudt draws on participant observation in El Paso statewide meetings and training on interviews and on archival documents and media coverage This book will appeal to those interested in community based organizing and leadership Mexican American and women s politics civic capacity building in education political socialization and both Texas and urban politics **We the People and Governing Texas** Anthony Champagne, Benjamin Ginsberg, Edward J. Harpham, Margaret Weir, Theodore J. Lowi, Caroline J. Tolbert, 2015-07-08 Politics is relevant and participation matters Manifesto for New Social Movements César Augusto Rossatto, 2019-10-01 The world is currently witnessing the emergence of a new context for education labor and transformative social movements Global flows of people capital and energy increasingly define the world we live in The multinational corporation with its pursuit of ever cheaper sources of labor and materials and its disregard for human life is the dominant form of economic organization where capital can cross borders but people can't Affirmative action democracy and human rights are moving in from the margins to challenge capitalist priorities of efficiency i.e. exploitation In some places the representatives of popular movements are actually taking the reins of state power Across the globe new progressive movements are emerging to bridge national identities and boundaries in solidarity with transnational class gender and ethnic struggles At this juncture

educators have a key role to play The ideology of market competition has become more entrenched in schools even as opportunities for skilled employment diminish We must rethink the relationship between schooling and labor developing transnational pedagogies that draw upon the myriad social struggles shaping students lives and communities Critical educators need to connect with other social movements to put a radically democratic agenda based on the principles of equity access and emancipation at the center of educational praxis Many countries in Latin America like in other continents are developing new alternatives for the reconstruction of social projects these emerging sources of hope are the central focus of this book Major historical change always starts with people s social movement Democracy can be one of the best political and social systems in the world but for it to work entails the sustainable participation of citizens Above all it requires that people be informed and critically educated since the quality of democracy depends on quality of education There are 2 kinds of power money and people If people exercise their agency they can be more powerful than money There are some organizing principles of social movements as don t do for others what they should do for themselves Saul Alinsky wrote Rules for Radicals A pragmatic primer for realistic radicals Mary Rogers Cold Anger A story of faith and power politics Michael Gecan Going Public An organizer s guide to citizen action and Ernesto Cortez s Industrial Area Foundation are all great sources for organized activism that do work I put some of these principles to the test and they produced positive results I was a founder and president of a union at my university and I lived my whole life as an activist and learned that we can do more together than alone Now we also have a new digital war with the Cambridge Analytica and Breitbart s fake news manipulation however we also have social justice hacktivism to counter act it as well as other democratic social media venues that critical thinkers and activist use The chapters in this book demonstrate the importance of widening and diversifying social movements at the same time emphasizes the need to build cohesive alliances among all the different fronts What some people think is impossible can become a transformed reality for those who dare attempt changing the world as global citizens
