Phillips, 1988 *Fiction Film and Faulkner The Art of Adaptation* **Fetishism and Curiosity** Laura Mulvey, 1996 *No Marketing Blurb* **Film Criticism in the Digital Age** Mattias Frey, Cecilia Sayad, 2015-04-20 Over the past decade as digital media has expanded and print outlets have declined pundits have bemoaned a crisis of criticism and mourned the death of the critic Now that well paying jobs in film criticism have largely evaporated while blogs message boards and social media have given new meaning to the saying that everyone's a critic urgent questions have emerged about the status and purpose of film criticism in the twenty first century In *Film Criticism in the Digital Age* ten scholars from across the globe come together to consider whether we are witnessing the extinction of serious film criticism or seeing the start of its rebirth in a new form Drawing from a wide variety of case studies and methodological perspectives the book's

contributors find many signs of the film critic's declining clout but they also locate surprising examples of how critics whether moonlighting bloggers or salaried writers have been able to intervene in current popular discourse about arts and culture In addition to collecting a plethora of scholarly perspectives *Film Criticism in the Digital Age* includes statements from key bloggers and print critics like Armond White and Nick James Neither an uncritical celebration of digital culture nor a jeremiad against it this anthology offers a comprehensive look at the challenges and possibilities that the Internet brings to the evaluation promotion and explanation of artistic works

Collecting Visible Evidence Jane Gaines, Michael Renov, 1999 In documentary studies the old distinctions between fiction and nonfiction no longer apply as contemporary film and video artists produce works that defy classification Coming together to make sense of these developments the contributors to this book effectively redefine documentary studies They trace the documentary impulse in the early detective camera in the reenactment of battle scenes from World War I and in the telecast of the Nevada A bomb test in 1952 Other topics include experiments in virtual reality the crisis of representation in anthropology and video art and documentary work that challenge the asymmetry of the postcolonial us them divide Book jacket

Raising the Dead Adam Charles Hart,2024 George A Romero never intended to become a master of horror but Night of the Living Dead made him a legend of the genre Raising the Dead dives into the expansive extraordinary body of work found in Romero s archive going beyond his iconic zombie movies into a deep and varied collection of writings that never made it to the big screen From the early 1960s until his death in 2017 Romero was a hugely prolific writer producing scripts in every conceivable genre from arty medieval allegories to wacky comedies to grand scale science fiction epics Though he had difficulty funding non horror projects he continued to write in whatever mode his imagination dictated and he rarely abandoned his ideas Themes story ideas and even characters were re purposed for new scripts evolving and transforming with each new iteration and sometimes finding a home in a horror film But in order to accommodate ideas that began in such different contexts Romero would have to change the horror genre itself a zombie movie could become a savage satire of consumerism or an excoriating critique of militaristic or capitalist hierarchies The horror genre became what Romero made of it Based on years of archival research the book moves between unfilmed scripts and familiar classics showing the remarkable scope and range of Romero s interests and the full extent of his genius Raising the Dead is a testament to an extraordinarily productive and inventive artist who never let the restrictions of the film industry limit his imagination
