Laudon And 11th Edition:

Industrial Software Applications Rainer Geisler, 2015-02-24 This book is written for engineering students and working professionals. Technical professionals are increasingly involved in IT issues such as implementing IT systems, managing them, and taking part in requirements analysis, vendor selection. In this book, the basics of production planning systems (PPS) are covered, as well as their implementation in ERP Systems like SAP. Readers also learn the basics of practical IT management and software creation through detailed real world examples. The book serves as a full 5 ECTS study module which fits into any engineering curriculum. 150 multiple choice quizzes, practical exercises, and a text filled with experiential examples make it a convenient choice for selfstudy and for classroom use.

Enterprise Information Systems Design, Implementation and Management Maria Manuela Cruz-Cunha, Joao Varajao, 2011-01-01 This book investigates the creation and implementation of enterprise information systems covering a wide array of topics such as flow shop scheduling, information systems outsourcing, ERP systems utilization, Dietz transaction methodology, and advanced planning systems. Provided by publisher.

Configurations of Knowledge Intensive Processes and Collaborative Technologies Ali Imtiaz, 2016-06-02 Aim of this dissertation is to provide organizations with a model and an application approach to configure their knowledge intensive processes with the functionalities offered by collaborative technologies. The model is structured into three segments: attributes of knowledge intensive processes, functionalities of collaborative technologies, configurations of knowledge intensive processes, and collaborative technologies. The model is validated within three industrial case studies.
