Brodsky, 1996 As the initial volume of an impressive series comprising the full collection of verse by Louis Daniel Brodsky this book begins with Brodsky's first poem written during his final months at Yale in 1963 and traces the author's maturation into his apprentice years when he was a young graduate student in English at Washington University in St Louis presenting the hundreds of poems prose poems and short autobiographical prose works he had composed by June of 1967 when he launched his professional writing career These pieces serve not only as a measure of Brodsky's evolution as a poet but as a human being chronicling one man's struggle to find his purpose in life to make a place for himself in a society often at odds with his own convictions His hopes fears and frustrations permeate the work revealing the intense inner conflicts he felt compelled to set to paper from individual matters his indecision over vocational goals his candid experiences with love and rejection the overwhelming isolation inherent in his academic pursuits to more global concerns especially his acute awareness of the increasing social and political turbulence surrounding him By grappling with these issues in his writing he explored passionate emotions released tension and at times resolved doubts evoked through his introspection But more important he used this outpouring to hone his creative skills and develop his personal and professional identity ultimately creating this tangible record of his travail and his ecstasy his certitude and his confusion and finally his journey into the heart of the person he would never stop becoming a poet **Contract of Defiance: Spectras Arise Trilogy, Book 1** Tammy
