Basic Research And Industrial Innovation In China Xielin Liu,Yubing He,Peng Cheng,2018-10-31 Chinese
enterprises have relied on importing technology and imitation as their main technology strategies in the past Based on
analysis of cross countries case studies and the history of industrial innovation the authors proposed the concept of industry
driven basic research and expounds the important role of scientific discovery in industrial technological innovation They are
convinced that both the government and enterprises should focus on industry driven basic research in order to bridge the
gap between the government s target and what enterprises actually do in China The challenge remains to be seen if China
can transform Science and technology investment into real industrial innovation capability
