, **Le nouveau guide du prisonnier** Observatoire international des prisons, 2000 Pour prendre en compte l'intergalité d'un parcours carcéral les auteurs ont choisi de considérer ses principales étapes avant pendant et après la prison Cette deuxième édition intègre les changements du droit mais aussi l'évolution des mentalités des regards et des discours sur la prison

Laurent Gbagbo's Trial and the Indictment of the International Criminal Court Gnaka Lagoké, 2023-02-14 The International Criminal Court ICC created in 2002 to combat impunity projects a sense of unfairness and stirs an unending debate A trial before the court epitomizes the controversy surrounding it perceived as a neocolonialist tool in the hands of the most powerful nations This research critically examines the trial of the former president of Ivory Coast Laurent Gbagbo The two decade crisis in Ivory Coast was a series of armed diplomatic and political conflicts in which human rights were violated by all sides Military confrontation resumed as a result of an electoral stalemate that followed a controversial presidential election in the fall of 2010 The most atrocious human rights abuse was perpetrated at the end of March 2011 by the rebel forces backed by the French and the United Nations troops the massacre of Du kou In one day hundreds of Laurent Gbagbo's followers were killed However the ICC undertook a selective prosecution against Gbagbo's camp After a trial of eight years Laurent Gbagbo was finally acquitted The news of his unanticipated acquittal shocked the world Later that decision was overturned and transformed into freedom with binding and coercive conditions by the Appeals Chamber which had succumbed to political pressure The former president of Ivory Coast spent months of confinement in Belgium until the Appeals Chamber rebutted the prosecutor's appeal against his release and confirmed his total acquittal and that of Bl Goud He eventually went back to Ivory Coast on June 17 2021 The trial of Laurent Gbagbo before the ICC despite his acquittal tardy one reflects a series of biases germane to international law and international justice such as the victor's justice stance the conflict between national law and international law the question of sovereignty and the issue of warfare The trial of Laurent Gbagbo which was the hallmark of the selective international justice system embedded in unfairness led to a historical landmark with his shocking acquittal which led to the indictment of the International Court whose fate has thus been sealed before history

Anne-Marie Mac Donald Courtemanche, Sharon Dorival, 2023-08-24 L'abus sexuel la violence domestique la prison l'alcoolisme Anne Marie Courtemanche les a tous vécus et la plupart avant l'âge de quinze ans Dans Maman où es-tu elle partage son cheminement tissant ensemble une histoire de perte de douleur de courage et transformation Ce livre contient des thèmes pour adultes au sujet de la négligence d'abus sexuels de violence domestique de traumatismes de la grossesse chez les adolescentes des cruautés de l'adoption de tromperie et de la manipulation Elle partage comment ces expériences ont affecté sa vie Ce livre partage tous les détails de son enfance traumatisante Une mémoire motionnelle et bouleversante d'amour et de survie Les souvenirs d'adorants d'une fille secourue par la brutalité et la rivalité d'une innocence volée un cercle familial brisé Ce livre démontre que la vie n'est pas définie par les frontières placées autour de

nous par les agresseurs et les manipulateurs mais par la profondeur de l'amour dans son cœur. Très difficile à croire mais c'est une histoire vraie qui jaillit du Canada. **The Unmaking of Crime** Valerian Benazeth, 2024-11-29. The Unmaking of Crime documents the pathways of offenders reforming their journey and desisting from crime and assesses the opportunities and limitations of the criminal justice system in aiding this process. Starting with known factors involved in desistance, the influence of family relationships, employment or geographical relocations, it expands the lens to include new perspectives such as the impact of drug abuses on the post-sentence period, the interaction of religion with delinquency and the reconfigurations of citizenship. Building on original qualitative research in Paris, the book considers a range of factors in the process of desistance such as spheres of socialisation, the role of stigma and the opportunities offered or denied after a time in a criminal lifestyle and the relationship between those seeking to desist from crime and key institutions and resources.

Short Circuit Ricardo Urquiza Campello, 2023-01-30. Drawing upon both ethnographic research and genealogical analysis, this book represents the first in-depth scientific analysis of criminal offenders' electronic monitoring (EM) in Latin America's largest country. It focuses on three empirical axes: 1. the implementation of EM policies against the backdrop of Brazil's collapsing carceral system; 2. the discourses and rationalities which undergird the deployment of EM; and 3. the effects of EM upon convicts moving back and forth between penal institutions and urban spaces governed by armed militias, criminal gangs and abusive police forces. The book is ideal for researchers and practitioners concerned with the fields of criminal justice and public security all over the world. **Carceral Spaces** Nick Gill, 2016-04-15. This book draws together the work of a new community of scholars with a growing interest in carceral geography: the geographical study of practices of imprisonment and detention. It combines work by geographers on mainstream penal establishments where people are incarcerated by the prevailing legal system with geographers' recent work on migrant detention centres where irregular migrants and refused asylum seekers are detained, ostensibly pending decisions on admittance or repatriation. Working in these contexts, the book's contributors investigate the geographical location and spatialities of institutions, the nature of spaces of incarceration and detention and experiences inside them, governmentality and prisoner agency, cultural geographies of penal spaces and mobility in the carceral context. In dialogue with emergent and topical agendas in geography around mobility, space and agency and in relation to international policy challenges such as the dysfunctionality of imprisonment and the search for alternatives to detention, this book presents a timely addition to emergent interdisciplinary scholarship that will prompt dialogue among those working in geography, criminology and prison sociology. *Social Conflicts, Citizens and Policing* Marc Cools, Brice de Ruyver, Marleen Easton, 2012. This volume provides new empirical data, theories and analyses on social conflicts, citizens and policing. The book contains articles that focus on specific manifestations of socially and/or legally criminalized conflicts which may appear as radicalized. Some articles discuss the new actors that are involved in governance of security in order to support the conventional actors, referring specifically to citizens and private

companies Also the book presents the results of perception studies on trust punitiveness and electronic monitoring at home The scientific research includes students and convicts enhancing a critical reflection on governance of security Series Governance of Security GofS Research Paper Vol 6 Criminels récidivistes : peut-on les laisser sortir ?
