France and the Mass Media Nicholas Hewitt, Brian Rigby, 1991-09-12 In this volume specialists from Britain and France adopt a fresh approach to the study of French culture since 1945 by focusing on the mass media and on a whole range of popular cultural forms As well as introducing English speaking readers to such new fields as French radio television science fiction and popular song this volume also highlights how the French themselves responded to the growing importance of the mass media in postwar France

Text/Image Mosaics in French Culture Laurance Grove, 2017-03-02 This study compares text image interaction as manifested in emblem books and related forms and the modern bande dessinée or French language comic strip. It moves beyond the issue of defining the emblematic genre to examine the ways in which emblems and their modern counterparts interact with the surrounding culture and what they disclose about that culture. Drawing largely on primary material from the Bibliothèque nationale de France and from Glasgow University Library's Stirling Maxwell Collection of emblem literature, Laurence Grove builds on the ideas of Marshall McLuhan, Elizabeth Eisenstein and more recently Neil Rhodes and Jonathan Sawday. Divided into four sections: Theoretics, Production, Thematics and Reception, *Text/Image Mosaics in French Culture* broaches topics such as theoretical approaches past and present to text image forms, the question of narrative within the scope of text image creations and the reuse of visual iconography for diametrically opposed political or religious purposes. The author argues that despite the gap in time between the advent of emblems and that of comic strips, the two forms are analogous in that both are the products of a parallel mentality. The mindsets of the periods that popularised these forms have certain common features related to repeated social conditions rather than to the pure evolution over time. Grove's analysis and historical contextualisation of that mentality provide insight into our own popular culture forms: not only the comic strip but also other hybrid media such as advertising and the Internet. His juxtaposition of emblems and the bande dessinée increases our understanding of all such combinations of picture and text.

War and Remembrance Renée Dickason, Delphine Letort, Michel Prum, Stéphanie A.H. Bélanger, 2022-06-15 Memory while seemingly a thing of the past has much to reveal in the present. With its focus on memory, *War and Remembrance* provides new viewpoints in the field of war representation. Bringing an interdisciplinary approach to discussions of the cultural memory of war, the collection focuses on narratives either fictional or testimonial that challenge ideological discourses of war. The acts of remembrance and of waging war are constantly evolving. A range of case studies analyzing representations of war in art, film, museums and literature from Nigeria, Australia, Sri Lanka, Canada and beyond questions our current approaches to memory studies while offering reinterpretations of established narratives. Throughout a commitment to Indigenous perspectives to examining the ongoing legacy of colonialism and to a continued reckoning with the Second World War foregrounds what is often forgotten in the writing of a single official history. *War and Remembrance* invites readers to cast a reflexive look at wars and conflicts past, some of them forgotten, others still vividly commemorated, the better to understand the cultural, political and social stake of memory as a source of conflict and exchange of resistance and opposition and of negotiation and reconciliation.

Unpopular Culture Bart Beaty, 2007-01-01 Artists working in a variety of western European nations have overturned the dominant traditions of comic book publishing as it has existed since the end of the Second World War, seeking instead to

instill the medium with experimental and avant garde tendencies commonly associated with the visual arts This book addresses this transformation
