Le Code Desther

Beatrice Martina Guenther

Le Code Desther:

The Poetics of Death Beatrice Martina Guenther, 1996-07-12 Traditionally the act of writing constitutes a challenge to the finality of death Yet writing as a subject for literary texts has its own tradition of imagery whose rhetoric is associated with loss rather than immortality The limit of death seems to force a more explicit analysis of the process of writing Writers consider the impact of their work on their readers or re-articulate the link between the written text and the subject it is meant to represent Each writer constructs a subversive text The conjunction of writing and death besides highlighting or demystifying the creative act leads in each case to a decidedly critical stance Guenther examines how Kleist's and Balzac's representations of death bring with them a critical awareness that calls attention to the historical context in which the texts are produced

Religious Stories in Transformation: Conflict, Revision and Reception Alberdina Houtman, Tamar Kadari, Marcel Poorthuis, Vered Tohar, 2016-10-18 In Religious Stories in Transformation Conflict Revision and Reception the editors present a collection of essays that reveal both the many similarities and the poignant differences between ancient myths in Judaism Christianity Islam and modern secular culture and how these stories were incorporated and adapted over time This rich multidisciplinary research demonstrates not only how stories in different religions and cultures are interesting in their own right but also that the process of transformation in particular deserves scholarly interest It is through the changes in the stories that the particular identity of each religion comes to the fore most strikingly

Nazi Occultism, Jewish Mysticism, and Christian Theology in the Video Game Series Wolfenstein Frank G. Bosman, 2024-07-03 The critically acclaimed if controversial game series Wolfenstein is famous for its inclusion of historical objects and figures from the realm of Nazi Occultism including the Swastika the Spear of Destiny the Thule Medallion Heinrich Himmler Helena Blavatsky and Karl Wiligut The series was criticized for its alleged Nazi glorification and for completely neglecting primary victims of the Second World War the Jewish people But since its reboot with Wolfenstein New Order in 2014 the series has a new distinct filo-semitic flavor including a number of explicit Jewish characters a playable concentration camp level and several theological discussions on God and the existence of evil In Nazi Occultism Jewish Mysticism and Christian Theology in the Video Game Series Wolfenstein game theologian Frank G. Bosman critically examines both the Nazi occultist and Judaist inspirations and aspirations of the game series putting forth the question if the series has not invertedly ventured into implicit antisemitic territory by including the Da'at Yichud a fictional ancient and distinct Jewish organization harboring the great minds of history

The Opinions of Different Authors Upon the Punishment of Death Basil Montagu, 1809 *The Death of the French Atlantic* Alan Forrest, 2020-01-31 The Death of the French Atlantic examines the sudden and irreversible decline of France's Atlantic empire in the Age of Revolution and shows how three major forces undermined the country's

competitive position as an Atlantic commercial power The first was war especially war at sea against France s most consistent enemy and commercial rival in the eighteenth century Great Britain A series of colonial wars from the Seven Years War and the War of American Independence to the Revolutionary and Napoleonic Wars did much to drive France out of the North Atlantic The second was anti slavery and the rise of a new moral conscience which challenged the right of Europeans to own slaves or to sacrifice the freedom of others to pursue national economic advantage The third was the French Revolution itself which not only raised French hopes of achieving the Rights of Man for its own citizens but also sowed the seeds of insurrection in the slave societies of the New World leading to the loss of Saint Domingue and the creation of the first black republic in Haiti at the beginning of the nineteenth century This proved critical to the economy of the French Caribbean driving both colons and slaves from Saint Domingue to seek shelter across the Atlantic world and leaving a bitter legacy in the French Caribbean It has also created an uneasy memory of the slave trade in French ports like Nantes La Rochelle and Bordeaux and has left an indelible mark on race relations in France today

Prosperity for All Matthew Hilton, 2011-05-02 The history of consumerism is about much more than just shopping Ever since the eighteenth century citizen consumers have protested against the abuses of the market by boycotting products and promoting fair instead of free trade In recent decades consumer activism has responded to the challenges of affluence by helping to guide consumers through an increasingly complex and alien marketplace In doing so it has challenged the very

meaning of consumer society and tackled some of the key economic social and political issues associated with the era of globalization In Prosperity for All the first international history of consumer activism Matthew Hilton shows that modern consumer advocacy reached the peak of its influence in the decades after World War II Growing out of the product testing activities of Consumer Reports and its international counterparts including Which in the United Kingdom Que Choisir in France and Test in Germany consumerism evolved into a truly global social movement Consumer unions NGOs and individual activists like Ralph Nader emerged in countries around the world including developing countries in Southeast Asia and Latin America concerned with creating a more equitable marketplace and articulating a politics of consumption that addressed the needs of both individuals and society as a whole Consumer activists achieved many victories from making cars safer to highlighting the dangers of using baby formula instead of breast milk in countries with no access to clean water The 1980s saw a reversal in the consumer movement s fortunes thanks in large part to the rise of an antiregulatory agenda both in the United States and internationally In the process the definition of consumerism changed focusing more on choice than on access As Hilton shows this change reflects more broadly on the dilemmas we all face as consumers Do we want more stuff and more prosperity for ourselves or do we want others less fortunate to be able to enjoy the same opportunities and standard of living that we do Prosperity for All makes clear that by abandoning a more idealistic vision for consumer society we reduce consumers to little more than shoppers and we deny the vast majority of the world s population the fruits of affluence
