Divergent Memories Gi-Wook Shin,Daniel Sneider,2016-09-07 No nation is free from the charge that it has a less than complete view of the past History is not simply about recording past events it is often contested negotiated and reshaped over time Debate over the history of World War II in Asia remains surprisingly intense and Divergent Memories examines the opinions of powerful individuals to pinpoint the sources of conflict from Japanese colonialism in Korea and atrocities in China to the American decision to use atomic weapons against Japan Rather than labeling others views as distorted or ignoring dissenting voices to create a monolithic historical account Gi Wook Shin and Daniel Sneider pursue a more fruitful approach analyzing how historical memory has developed been formulated and even been challenged in each country By identifying key factors responsible for these differences Divergent Memories provides the tools for readers to both approach their own national histories with reflection and to be more understanding of others The Americans Florida Chapter Summaries

World History: Patterns of Interaction

McDougal-Littell Publishing Staff,2004-03 **The Confederate and Neo-Confederate Reader** James W. Loewen,Edward H. Sebesta,2011-01-05 Most Americans hold basic misconceptions about the Confederacy the Civil War and the actions of subsequent neo Confederates For example two thirds of Americans including most history teachers think the Confederate States seceded for states rights This error persists because most have never read the key documents about the Confederacy These documents have always been there When South Carolina seceded it published Declaration of the Immediate Causes Which Induce and Justify the Secession of South Carolina from the Federal Union The document actually opposes states rights Its authors argue that Northern states were ignoring the rights of slave owners as identified by Congress and in the Constitution Similarly Mississippi s Declaration of the Immediate Causes says Our position is thoroughly identified with the institution of slavery the greatest material interest of the world Later documents in this collection show how neo Confederates obfuscated this truth starting around 1890 The evidence also points to the centrality of race in neo Confederate thought even today and to the continuing importance of neo Confederate ideas in American political life The 150th anniversary of secession and civil war provides a moment for all Americans to read these documents properly set in context by award winning sociologist and historian James W Loewen and coeditor Edward H Sebesta to put in perspective the mythology of the Old South **When Women Stood** Alexandra Allred,2023-02-08 An unapologetically candid and illuminating history of women and their fight for equality told through the influential world of sports From early Amazons to
