This volume includes topics covered in both Taxation of Individuals and Taxation of Business Entities. The essentials volume eliminates the specialty chapters on investments, compensation, retirement, savings and home ownership and folds key topics from these chapters into the main individual taxation chapters. To make room for this information, the discussion of individual for and from AGI deductions is separated into separate chapters. The essentials volume also discusses corporate formations before addressing corporate operations and it presents nonliquidating and liquidating corporate distributions in the same chapter.
