Politics in the American States and Communities Jack R. Van Der Slik, 1996 With a balanced combination of scholarly and popular articles **Politics in the American States and Communities** A Contemporary Reader brings analysis of the institutions processes policy making and people of state and local government to life for the student Intended as either a supplement or core text for the standard course in State and Local Government Van Der Slik covers all the usual course topics in depth Forty full length articles range over ten chapters to survey the landscape of state and municipal governance from introductory consideration of the nature of American Federalism to State Constitutions

Finance Participation and Elections Parties and Interest Groups Legislatures and Councils Executives Courts and Policy Arenas and Politics for Changing Future Throughout Van Der Slik asks the student to consider the broad issues of scarcity popular apathy pluralism and the people behind politics Chapter opening introductory essays introductions to each article and chapter ending questions are provided to help the student navigate the terrain *Differential Effects of a Multiple Intelligences Curriculum on Student Performance* Thanh T. Nguyen, 2002-06-08 The Fuller School is one of the six elementary schools in Gloucester Massachusetts a small urban community known for shipbuilding and fishing Fuller students come from a wide range of socioeconomic backgrounds from public housing facilities to affluent families and a variety of ethnic groups including Italian Hispanic and Vietnamese With its diverse population the Fuller School represented an excellent environment to test the use of Multiple Intelligences MI as a foundation for its curriculum This study aimed to examine one of the ten objectives of the FIRST Schools and Teacher Program Grant To improve student achievement on standardized tests by using multiple intelligences instruction The results of the California Achievement Test 5 CAT 5 given at grade 5 tended to show no differences between students in the MI and the traditional school program Although no association between CAT 5 outcomes and the MI treatment were found two report card outcomes at the sixth grade level Math and Physical Education and an interaction of Program type with Home language on Music were found to be significant By and large the magnitude of these differences was not large enough to conclude that the MI treatment was effective in producing larger standardized test scores than students in the non MI program Yet considering that the MI program emphasizes different kinds of activities and more diverse ways of learning and provides an alternative to the traditional classroom this result of no differences between programs can be thought of a success for the MI community Participants in the MI program performed just as well as those who had been in the traditional program This case study is unusual because public schools rarely assigned their students randomly to experimental programs through a lottery process Although students were randomly assigned to MI and traditional classrooms accounting for several additional demographic variables in the students personal and family background helped to characterize the differences in student performance in language mathematics social studies science arts physical education and music Educators should find the results encouraging even with no differences in test scores and grades because this indicates that MI approaches are competitive with traditional ones These findings shed new light on the application of MI and given the growth in its use provides a much needed comparison for those interested in implementing it as one component of educational reform *Summer Link Basic Learning Skills, Grades 1-2* McGraw-Hill, 2004-03-15 Summer Link Basic Learning Skills Grade 2 provides the skills your child needs to master for Second Grade Use Summer Link Basic Learning Skills Grade 2 to review and retain the math reading and language arts skills learned in First Grade Help your child prepare to take on new material with confidence in school this fall Let Summer Link Basic Learning Skills Grade 2 help build Second Grade success for your child Book jacket [Summer Link](#)
