thoughts feelings dilemmas and actions of people from history For each history topic Miller suggests two titles one for use with the entire class and one for use with small reading groups Summaries of the books author information activities and topics for discussion are supplemented with vocabulary lists and ideas for research topics and further reading This integrated approach makes history meaningful to students and helps them retain historical details and facts      **Social Studies Through the Year** Deborah Plona Cerbus,1999 Loaded with social activities for the whole school year for primary grades      **Contexts for Learning** Ellice A. Forman,Norris Minick,C. Addison Stone,1996 This work presents landmark research concerning the vital dynamics of childhood psychological development It s origin can be traced to the late 1970s when several psychologists began to challenge existing notions of cognitive development by suggesting that such functioning is bound to specific contexts and that cognitive development is based on the mastery of culturally defined ways of speaking thinking and acting About the same time several translations were made available in this country of the seminal work of Vygotsky the noted theoretician offering a conceptual base on which these workers could build This volume with contributions from many of the scholars who pioneered this area and translated the work of Vygotsky looks at the complex mechanisms by which children acquire the cultural and linguistic tools to carry out cognitive activities and explores the implications of this research for education The book is organized around three main parts Discourse and Learning in Classroom Practice Interpersonal Relations in Formal and Informal Education and The Sociocultural Institutions of Formal and Informal Education An afterword by Jacqueline Goodnow suggests new directions for sociocultural research and education The intended audience is composed of developmental educational and cognitive psychologists along with advanced students in developmental and educational psychology      *Native Americans, Interdisciplinary Thematic Unit: Challenging ,*
