

Nature vs nurture Argumentative Essay

Whereas nurture is the environment around us that can influence our upbringing and it is the society around us that affect the way we think or do certain things. It refers to a person's childhood and how they were brought up and what they learn. Nature vs. Nurture debate does not have a firm conclusion to say which one has more value as it is a debate that has been discussed between philosophers to identify which one has more influence in our lives. Some philosophers argue that the nature is most influential in our lives as it is part of our genetic makings, something that we cannot change even if we want to.

Others argue that nurture is more influential as it determines our personality and our perspective of things, the way we view things. For example, a teenager wanting to be a doctor when they grow up is not part of our nature, it goes more towards nurture because it is the way we are brought up that influences our decisions in life. If a child had a parent who is a doctor and they watch their parent making people feel becoming well, then they might want to do the same as they might get fascinated by it. This decision that the child made to become a doctor is the doing of nurture because the child was influenced by what he saw around him.

Nature on the other hand is nothing that can be fixed or change at any cost. For example, if a child was born with illness such as Cystic Fibrosis then this is something that they cannot recover from, they might get medication to help them survive but it is not something that they can get well from as it is part of their genetic making. Furthermore, some people argue that nurture has more influence in our lives because a serial killer does not become a murder because it is in his genes, but because they are influenced by what they see around them.

Some philosophers claim that a person's development is influenced by both nature and nurture. For example, if a person is born with blonde hair and blue eyes, this is something natural that they cannot change, however, if they live in a posh area, then their accent would be posh; this is something that is nurture is responsible for because the community a person lives in Wool_sld determines the accent they would have. Dry Money and the boy with no penis is the story of David Rimes who was turned in to a girl when he was baby due to his Penis being burned off during circumcision.

When David was born he was called Bruce and his twin brother was called Brian. Dry John Money was a sexologist; he debates about sex changes operations on transsexual. When Brace's penis was burned off, his parents Janet and Ron Rimes were very upset over and did not know what to do. When they found out about Dry Money, they finally found hope, knowing that he would be able to help their child. Dry Money believed that nurture can win out nature anytime. For example, he believed that

STILL Blaming Children Bernard Schissel,2021-01-10T00:00:00Z The media enhanced moral panic surrounding youth has continued unabated over the past two decades Its form and substance varies but the politics of blaming and exploiting children underlies it all Despite the reality that rates for most youth crime have gone down the public condemnation of youth especially through the news media continue unabated and the position of children and youth in our societies is still as precarious as ever Put bluntly the lives of too many children and youth are fraught with potential danger Not only are they the victims of excessive legal scrutiny and scapegoats for panic driven public policy but they also go off to war proportionately more than adults and they work at unskilled jobs for no benefits and insultingly low wages Children and youth live outside the protections of human rights

STILL Blaming Children an expanded and updated version of *Blaming Children* shows how getting tough on young offenders ignores the reality of their lives and the reality of their misconduct The book ends by describing more humane and mindful alternatives for youth offenders based on the human rights our children deserve

Patterns in Child Phonology Wyn Johnson,2010-07-31 This advanced introduction to non disordered phonological acquisition is the first textbook of its kind Relevant to theoretical applied and clinical phonology this student friendly text will enable the reader to enhance their observational skills and develop an understanding of the connection between child data and phonological theory The authors provide a clear overview of issues in phonological acquisition investigating child phonological patterns phonological theory the pre production stages of phonological acquisition and non grammatical factors affecting acquisition

Wyn Johnson and Paula Reimers first present a rich set of cross linguistic data calling for phonological analyses before introducing a broad spectrum of phonological theory which ranges from defining what is meant by markedness to demonstrating how Optimality Theory explains child patterns The question of when acquisition begins in the child also entails an investigation of pre production stages which casts doubt on the validity of phonological theory and necessitates the examination of alternative accounts of child patterns By steering the reader to investigate the extent to which theories of speech production can explain recurring sound patterns in child language and introducing perceptual aspects of acquisition this book provides readers with a sound understanding of the processes in phonological acquisition essential to students and practitioners

Patterns in Child Phonology is Data rich with numerous and cross linguistic child production data Theory rich pre production stages of acquisition are examined and the book remains theory neutral Student friendly includes definitions of phonological terms and concepts
