*Blood at the Root* Jennie Lightweis-Goff, 2011-08-31 In *Blood at the Root* winner of the SUNY Press 2009 Dissertation First Book Prize in African American Studies Jennie Lightweis Goff examines the centrality of lynching to American culture focusing particularly on the ways in which literature popular culture and art have constructed the illusion of secrecy and obsolescence to conceal the memory of violence Including critical study of writers and artists like Ida B Wells Barnett Richard Wright William Faulkner George Schuyler and Kara Walker Lightweis Goff also incorporates her personal experience in the form of a year long travelogue of visits to lynching sites Her research and travel move outside the American South and rural locales to demonstrate the fiction of confining racism to certain areas of the country and the denial of collective responsibility for racial violence Lightweis Goff seeks to implicate societal attitude in the actions of the few and to reveal the legacy of violence that has been obscured by more valiant memories in the public sphere In exploring the ways that spatial and literary texts replace lynching with proclamations of innocence and regret Lightweis Goff argues that racial violence is an incompletely erupted trauma of American life whose very hiddenness links the past to still present practices of segregation and exclusion

Douglas,1999-07-30

From the arrival of the penny papers in the 1830s to the coming of radio news around 1930 the American newspaper celebrated its Golden Age and years of greatest influence on society Born in response to a thirst for news in large eastern cities such as New York Boston and Philadelphia the mood of the modern metropolitan papers eventually spread throughout the nation Douglas tells the story of the great innovators of the American press men like Bennett Greeley Bryant Dana Pulitzer Hearst and Scripps He details the development of the bond between newspapers and the citizens of a democratic republic and how the newspapers molded themselves into a distinctly American character to become an intimate part of daily life Technological developments in papermaking typesetting and printing as well as the growth of advertising gradually made possible huge metropolitan dailies with circulations in the hundreds of thousands Soon journalism became a way of life for a host of publishers editors and reporters including the early presence of a significant number of women Eventually feature sections arose including comics sports puzzles cartoons advice columns and sections for women and children The hometown daily gave way to larger and impersonal newspaper chains in the early twentieth century This comprehensive and lively account tells the story of how newspapers have influenced public opinion and how public demand has in turn affected the presentation of the news      *New Old-fashioned Ways* Jack Santino,1996

Every year as each holiday rolls around American popular culture is suddenly awash in images associated with that festivity While Christmas has been the most obviously commercialized celebration Halloween Easter the Fourth of July Hanukkah Thanksgiving and Valentine s Day are also reflected in the offerings of the mass media and consumer products industries This book is the first in depth investigation of the myriad ways in which traditional holidays are both manifested and exploited in a commercial consumerist society Jack Santino s analysis encompasses everything from movies to romance novels from television shows to comic books One especially fascinating feature of this study is its examination of the packaged foods industry and the manner in which soft drinks beer snack cakes cookies candy and breakfast cereals are regularly repackaged to reflect particular holidays In what becomes a central theme of the book Santino shows how holidays give companies the opportunity to create an illusion of novelty for products that otherwise remain unchanged over time For example the holiday Chips Ahoy cookies or Halloween Oreos differ only in their appearance from the everyday products but they assume a quality of uniqueness through their association with a special time of the year Throughout the book Santino examines the logic by which commercial culture and holidays are linked Halloween for instance with its traditional symbolism of death evil and monsters has served as a theme for heavy metal music and slasher films This in turn has led to some interesting transmutations as one text borrows from another in the wake of a commercial success When John Carpenter s pioneering 1978 slasher film Halloween became a box

office hit it was perhaps inevitable that other holiday based slasher films New Year's Evil April Fool's Day and Silent Night Deadly Night would follow

Copiously illustrated *New Old Fashioned Ways* is at once entertaining and informative a treat for general readers as well as an important work for scholars in a variety of fields including communications folklore anthropology sociology and business
