EBOOK: How to Win as a Final-Year Student Phil

Race,2000-07-16 Final year undergraduates face a particular set of challenges What they do in their final year is critical to their futures They must cope with revision for final exams as well as completing coursework and sometimes working on extended dissertations or projects At the same time they need to be taking strategic decisions about their future careers Many will be handling job applications and interviews Others will be going through selection processes for entry into higher degrees With greater numbers of students entering higher education representing a broader cross section of the population than ever before the challenges of the final year cause most students some measure of stress and prove unmanageable for a significant number Because of larger class sizes in most institutions the amount of real help and support from academic staff to final year students is diminishing Many final year students will have read one of the many useful general study skills texts which are available However these books do not provide the depth of assistance or the range of coverage which final year students need How to Win as a Final Year Student is the first book to deal with the specific challenges faced by final year students It is strongly recommended that students be advised to read it at the beginning of their final year Topics covered by this book include How to think strategically about what you re doing How to plan your time in order to work successfully on

several things at once Tackling big dissertations and projects Revision learning from past mistakes Managing stress Exam techniques for final exams including preparing for a viva Thinking about research and higher degrees Writing a CV Making job applications Preparing for interviews and tests *Research Proposals 2e* Martyn Denscombe, 2019-10-16 Learn how to write a successful research proposal with this user friendly step by step guide Research Proposals provides practical advice on how to deal with the seven basic questions that any research proposal needs to answer What is it all about What do we already know What do we need to find out How will we get the necessary information What will it cost and how long will it take Is the research socially acceptable What will be produced This is a valuable resource for students who need to conduct a research project as part of their studies and anyone who wants to submit an application for research funding The new edition is perfect for master s students planning a dissertation undergraduate students approaching their final year project and PhD students applying for acceptance onto a doctoral programme This is an insightful and easy to use guide for students and researchers It will support creating a research proposal for both academic programme assignments and for preparation for conducting research The logical format is useful and very clear to read There is an excellent appendix providing a specimen research proposal with commentary boxes highlighting the important points Dr Alaster Scott Douglas Reader in Education Professional Practice University of Roehampton UK Everything that you need to know about how to put together a research proposal is in this book It s the perfect guide for students and early career researchers who are writing a research proposal and have not had much experience Impressive in its clarity and common sense Denscombe s practical guide tells you not just what to do but why as he takes you step by step through the process The book is crammed with useful tips helpful examples effective graphics and a great checklist appendix Highly recommended Rosalind Edwards Professor of Sociology and co director of the ESRC National Centre for Research Methods University of Southampton UK This is a highly practical book about the art of communicating why your research ideas are worthwhile feasible and should be supported It takes away any mystery about the process and so instils confidence Melanie Nind University of Southampton UK **EBOOK: Social**

Research Tim May, 2011-03-16 This fully revised and updated popular text successfully bridges the gap between theory and methods in social research clearly illuminating these essential components for understanding the dynamics of social relations The book is divided into two parts with part one examining the issues and perspectives in social research and part two setting out the methods and processes Updates to this edition include A new chapter on case study research A new concluding chapter Links to additional websites and IT applications that are integrated throughout the book Updated experiential examples and scenarios More international examples The clear writing style chapter summaries questions for reflection and signposts to further readings continue to make this book the ideal companion to social research for students across the social sciences In addition it will be recognised as an invaluable source of reference for those practising and teaching social research who wish to keep abreast of key developments in the field With contributions from Beth Perry

University of Salford and Carole Sutton University of Plymouth *Learning From Research* Bell, Judith, Opie, Clive, 2002-06-01 This book tells the story of five postgraduate researchers on their journey to successful completion of Master of Education or PhD degrees Four of the five were new to research had demanding full time jobs and so were researching part time and at a distance All four undertook quantitative studies and even though two of them claimed to be afraid of stats at the beginning they all succeeded in producing quality theses **Listening to People** Annette Lareau, 2021-07-23 A down to earth practical guide for interview and participant observation and analysis In depth interviews and close observation are essential to the work of social scientists but inserting one s researcher self into the lives of others can be daunting especially early on Esteemed sociologist Annette Lareau is here to help Lareau s clear insightful and personal guide is not your average methods text It promises to reduce researcher anxiety while illuminating the best methods for first rate research practice As the title of this book suggests Lareau considers listening to be the core element of interviewing and observation A researcher must listen to people as she collects data listen to feedback as she describes what she is learning listen to the findings of others as they delve into the existing literature on topics and listen to herself in order to sift and prioritize some aspects of the study over others By listening in these different ways researchers will discover connections reconsider assumptions catch mistakes develop and assess new ideas weigh priorities ponder new directions and undertake numerous adjustments all of which will make their contributions clearer and more valuable Accessibly written and full of practical easy to follow guidance this book will help both novice and experienced researchers to do their very best work Qualitative research is an inherently uncertain project but with Lareau s help you can alleviate anxiety and focus on success Service Quality Measurement: Issues and Perspectives Lewlyn L. R. Rodrigues, 2013-05-22 This book is very useful for it is not just descriptive in its nature but prescriptive too It is descriptive in the sense that it describes the process of developing or using a metric in a problem situation and prescriptive as it clearly prescribes how a beginner can put the theory into practice In this globalized economy maintaining quality of products and services has been the thrust area of interest among academicians and practitioners Today there are quite a good number of books and research articles available Nevertheless service quality measurement has always posed problems particularly in the context of service industries due to the difficulty in the measurement of the intangibles and implied needs of the customers The research literature is filled with articles on how to quantify the services and there are several streams of arguments on the choice of the most ideal approach However the research gap lies in the answer to the question Do these measurement instruments concur in their measurement outcomes or do they give different results in the same situation This book primarily makes an attempt to answer this question through a case study approach Even though there are several instruments for the measurement of service quality the two most widely used instruments are SERVQUAL and SERVPERF metrics Comprehensively this book explains the systematic procedure of using both the instruments in a service sector and further the procedure for conducting

a statistical analysis so that one will be able to apply the same in any service sector It then takes the reader through a series of tests in order to compare the two metrics and to prove statistically if there is the same outcome in a problem situation The results are sure to surprise the reader and trigger the research bent of mind to undertake a similar study of such metrics and gain mastery over performing an independent research with very minimal guidance from a professional guide

Preach the Word Myles MacBean, 2019-11-11 How should we help equip the church leaders of Africa today There remains a well documented lack of theologically sound Bible centric preaching in Sub Saharan Africa The majority of sermons are preached by untrained or undertrained church leaders Following a practical theology praxis this book develops a conceptual framework for the evaluation of existing alternative approaches to grassroots preacher training It also proposes broad principles for effective preacher training and offers a practical solution The 20th century had seen the Christian church in Africa grow 36 fold to 360 million This amazing growth is arguably the largest religious change in human history in such a short period It has shifted the focus of Christianity from North to South This rapid growth is debatably considered by some missiologists and theologians to have resulted in an African church a mile wide and an inch deep That is a church of great size but lacking in spiritual depth The rapid growth has led to insufficient numbers of trained leaders being available to oversee their congregations Most leaders are unpaid Untrained or undertrained leaders have an inadequate knowledge of scripture and lack understanding of its interpretation They also lack the skills they need to communicate its truths Even so they preach up to 90% of the sermons in rural Africa Despite a tremendous hunger for training among many of those preachers traditional college based theological education cannot keep up with the demand for trained pastors and preachers in an affordable or culturally appropriate manner

Case Research in Public Management David E McNabb, 2014-12-18 Highly readable and non technical this handbook is designed to help students and non profit managers gain a working knowledge of the principles and practices of conducting qualitative case study research in public organizations This book is a motherload of practical and comprehensive guidance to planning conducting analyzing and reporting case research project findings McNabb begins with a detailed rationale for the use of the case research approach in public administration non profit organizations and political science Then it provides step by step instructions on how to conduct single case multicase and meta analysis research with guidelines on organizing and writing the case report *Case Research in Public Management* also includes many examples of case studies in a wide range of important topics in public administration including performance management sustainable government technology management security issues emergency and disaster management social and health services infrastructure public transportation and transforming the work of government
